

Yarrows, V.M.D. Plan Joint Bid For French Ships

Yarrows Ltd. and V.M.D. are combining their efforts in a tender to be placed early next month on six 2,600-ton French cargo vessels, it was announced today in a joint statement by H. S. Hammill, general manager of V.M.D. and H. A. Wallace, general manager of Yarrows Ltd.

This is the first time in the history of the two shipyards that they have made a joint bid for a contract.

The decision was made by the heads of the two yards to co-operate in an effort to bring increased business to Victoria.

By co-operating Victoria companies will be able to quote better delivery dates than they could if working separately, Mr. Wallace and Mr. Hammill said.

No Quarantine For C.P.R. Train

VANCOUVER (CP) — A city health inspector was on hand at the Canadian Pacific Railway Station here today to meet a transcontinental train bearing a meningitis suspect, located among 40 dependents of Canadian servicemen traveling here from Halifax. But the train was not placed under quarantine, Dr. J. S. Kitching, assistant medical health officer, said provincial quarantine regulations do not include meningitis.

Stock Subscribed

Syndicate managers closed the books at 11 this morning for 80,000 common shares of Felt and Textiles of Canada Ltd., which has been incorporated to manufacture soft floor coverings at the former woolen mills here, Denis Hagar, of Hagar Investments Ltd., said this afternoon.

New Director

BERLIN (AP) — Unrra Director-General F. H. LaGuardia announced tonight that Meyer Cohen, director of Unrra repatriation in Washington, would become acting director in Germany, replacing British Lt.-Gen. Sir Frederick Morgan.

Avoid Yugoslavia

ROME (AP) — European Air Transport Service headquarters said tonight its flights between Vienna and Udine, Italy, would be rerouted away from Yugoslav territory. The U.S. planes henceforth will fly through the Brenner Pass when weather permits.

Pickets Close Ranks

HAMILTON (CP) — Picket lines outside the Hamilton works of the Steel Company of Canada, against which the United Steelworkers of America (C.I.O.), are conducting a wage-hours strike, appeared at mid-afternoon today to have reformed after being termed "wide open" at noon by company officials.

Oppose Co-op Tax

OTTAWA (CP) — Opposition parties renewed in the Commons today a drive against government plans for the taxation of Co-operatives. John Bracken, Progressive Conservative leader, again launched the attack when the bill that will bring into effect the tax changes announced in the budget June 27 came up for third reading.

QUITE A SHOE—One of the largest truck tires ever built is this 27-00-33 earthmover model, now in regular production. More than seven feet high, weighing 1,482 pounds, it dwarfs Margaret Fields, office worker at the Good-year plant in Akron, Ohio.

Germans' Fight Now Against Hunger

Allied Countries Reject Italian 'Inactive' Claim

PARIS (AP)—Poland urged a peace conference committee today to reject as "completely unfounded" an Italian declaration that Italy had not been at war with all the 21 conference countries, notably Poland, Belgium, the Netherlands and Czechoslovakia.

"Poland was at war with Italy," said a Polish delegate. "Polish soldiers fought in North Africa and Italy. Polish soldiers were killed by Italian bullets. Was this a state of war or a state of peace?"

Belgium, Yugoslavia and the Netherlands likewise challenged the Italian claim, which was presented in a proposed amendment to the preamble of the Italian treaty taken up by the Italian political and territorial committee. Italy suggested that a statement in the preamble that Italy was at war "with all" Allied powers be altered to read "some" of the conference countries.

NOT MENTIONED

The memorandum criticized the omission of any reference to what it called "the active role played by the Italian people" in overthrowing Mussolini's regime. It urged deletion of the phrase "surrendered unconditionally" in the preamble's reference to the capitulation of July 25, 1943, and called for a reference to "Italy's material share in the war against Germany which lasted for 18 months."

Britain To Ask U.N. Give Her Trusteeship Over Palestine

LONDON (CP)—A British government informant said today Britain will ask the United Nations' trusteeship council next month to appoint her sole trustee for Palestine.

The government has decided this step is necessary, the source said, because with the demise of the League of Nations the legal basis of Britain's mandatory rights no longer exist.

He said, however, that Britain would "certainly not" give up her mandate in the Holy Land and had never considered doing so.

Foreign Secretary Bevin told the United Nations' Assembly in January that Britain was awaiting the report of the Anglo-American Inquiry Committee on Palestine before deciding the country's future. The committee subsequently recommended that Palestine be placed under a trusteeship system and that arrangements be made to allow 100,000 Jews to immigrate in the near future. Negotiations on implementation of the report have become stalled, however, in a plan for division of the country into four zones which President Truman refused to support.

The Foreign Office said Britain would begin a conference on Palestine with representatives of the Arab League countries early next month and hoped to complete the talks before the United Nations' Assembly meets Sept. 23. A spokesman said Britain probably would present to the U.N. a draft of a trusteeship agreement between the United Kingdom and the Palestine Jews and Arabs, provided a settlement was reached during the talks in London.

The Colonial official said "discussions are still going on with the Jewish Agency" regarding

No hostilities actually occurred between Italy and Poland, Belgium, the Netherlands and Czechoslovakia, the Italian note said, "and the nationals of those states were never considered in Italy to be enemy aliens."

A Netherlands delegate commented that the Netherlands had declared war on Italy through a note delivered by the Swedish minister in Rome, but that Italy had not accepted the note, holding that the Netherlands "no longer existed."

Paul Henri Spaak of Belgium said Belgium "cannot accept the Italian amendment." He observed there had been no formal exchange of declarations, but that the Italian navy had sunk Belgian ships and Belgian troops fought against Italian troops.

NO BASIS FOR CLAIMS

Czechoslovakia also termed the Italian claims unfounded, asserting she considered herself at war with Italy from Dec. 16, 1941.

Ethiopia also attacked the note, saying its intention was to show that "Italy was drawn into the war against the wishes of the Italian people." The delegate added: "But the whole world remembers the enthusiasm of the Italian people when Mussolini announced the war against Ethiopia."

With no other committees or plenary sessions scheduled, the Italian committee adjourned until later today to discuss other parts of the memorandum.

an invitation for its representatives to attend the talks in London.

The Jewish Agency executive concluded a three-week conference in Paris today.

FATE OF 18 MEN

JERUSALEM (CP)—A reliable informant said today that the fate of 18 young Jews who were sentenced to death last Friday would be decided "within the next 24 hours" and that all speculation pointed to reprieves by the High Commissioner.

The 18 were condemned by a military court at Acre for firing on British troops after the blasting of the Haifa railway workshops two months ago. Four women companions were sentenced to life imprisonment.

The usual procedure in such cases is the confirmation or commutation of the death sentences by the general officer commanding British troops in Palestine.

In the case of two condemned members of the Irgun Zvai Leumi, Jewish underground organization, last June, however, Lt.-Gen. Sir Evelyn Barker confirmed the death sentences and Lt.-Gen. Sir Alan Cunningham, High Commissioner, subsequently commuted them.

Birtles Remanded

Magistrate H. C. Hall in city police court today remanded until next Tuesday the preliminary hearing of John Birtles, 17-year-old Brentwood youth, on a charge of attempted murder in connection with the shooting of Constable Stanley Cornish, July 20.

"I don't know when Constable Cornish will be well enough to appear," remarked city prosecutor Claude Harrison.

Left above, in front of the wrecked Reichstag building, Berlin's statue of Victory looks down on a scene of defeat—women hoeing potatoes in the Tiergarten. Above, a grim-faced woman, an average present-day Berlin housewife contemplates her entire food ration for one day.

Unrra's Chief In Germany Retired

LT.-GEN. SIR F. MORGAN

LONDON (CP) — The War Office announced today that Lt.-Gen. Sir Frederick Morgan has been released from his duties as the United Nations' Relief and Rehabilitation Administration's chief of displaced persons operations in Germany.

The War Office announcement said:

"In connection with the re-organization of Unrra's displaced persons work in Germany, and in view of the changing situation, the War Office has been informed by Mr. F. H. LaGuardia, director-general of Unrra, that it is now possible to release Lt.-Gen. Sir Frederick Morgan from his duties as chief of the displaced persons operation in Germany. Gen. Morgan is accordingly returning to England."

Gen. Morgan's release came after Mr. LaGuardia had challenged an unnamed "high authoritative source," quoted in press dispatches, to prove a statement that Soviet Russia was using Unrra as a means of gathering information in Western Allied territory.

Gen. Morgan had not been specifically named as the "high authoritative source," but there had been speculation in the press that the statement was attributable to him.

Gen. Morgan created a sensation last winter with a statement that there was an organized, well-financed exodus of Jews from Europe. He said many Jews in the exodus carried with them a good supply of money. Jewish organizations accused him of being "anti-Semitic."

Deny Communists Of China In Pact

LONDON (AP) — The Soviet news agency Tass broadcast today it had been authorized to deny reports that Chinese Communists had entered into a military agreement with the Soviet Union and the Mongolian People's Republic.

Tass attributed the reports to the newspapers "Shen Pao and Shanghai Evening Post."

"This report is a pure invention fabricated with some malicious aim," the agency said.

Pearson Warns Wage Increases Subject To Review

Labor Minister George S. Pearson, chairman of the B.C. Regional War Labor Board, warned today that directions and authorizations for wage increases made by the regional board were subject to review by the National War Labor Board which may either cancel or revise them.

Mr. Pearson said that the Regional War Labor Board was greatly impressed with the need for maximum production if British Columbia were to attain the greatest possible prosperity and he was hopeful that the board's judgment would result in treating a condition which would lead to an increase in production and thereby justify the increased wages.

"In accordance with decision of the War Labor Board at its last meeting, the board is proceeding with consideration of applications for wage increases greater than the 10-cent ceiling which the Wartime Prices and Trade Board have indicated as being the desirable maximum," Mr. Pearson said in a statement.

"The action also is taken despite the warning of federal Labor Department officials of the embarrassment that our action may cause the national boards," the statement continued. "The action we are taking is done believing that many, if not all of the requested increases, are justifiable in all the circumstances and also because we believe that the wage situation must be clarified if we are going to maintain maximum production."

Pilots Who Shot Down U.S. Plane Right, Slav Says

Hamilton Steel Strikers' Picket Line Wide Open

HAMILTON (CP)—Officials of the Steel Company of Canada announced shortly after noon today that the picket line of the United Steelworkers of America (C.I.O.) outside the company's Hamilton works, was "wide open." They said men were passing in and out of the premises unmolested and food was going in through the main gate without hindrance.

A company-estimated 2,700 men have been besieged in the plant for more than a month while striking union men held strong lines around the gates. The workers stayed in the plant on a 24-hour-a-day basis, eating and sleeping on plant property.

A short time before the company made its announcement, automobiles filled with Stelco employees passed in and out of the plant's main gate, escorted through the picket lines by city police. About 40 men left the plant and approximately the same number entered.

It was the first time the picket line of the United Steelworkers had been broken since the union called its wages-hours strike against Canada's basic steel industry July 15. At least 10 cars carrying men were taken into the plant.

"We want to stop them, but what can we do?" said a picket captain. "The constables told us they have a legal right to go in and out of the plant. We don't want any more trouble with the police. We have enough men in court now."

Britain To Control Iron, Steel Industry

LONDON (CP)—The government announced tonight it has decided to appoint a board "for the general control and supervision of the iron and steel industry."

The announcement said the board would include members of the privately-owned steel concerns, but declined to disavow previously announced plans for eventual public ownership of the mills.

The board will be responsible to the Minister of Supply, John Wilmot, who last April announced in the House of Commons that the government had decided to extend a "large measure of control" over the iron and steel industry.

Nationalization of the industry was one of the Labor Party's campaign announced goals.

Weather Forecast

Victoria and Vicinity—Wednesday: Clear, moderate southwest winds, little change in temperature.
Monday's Temperatures: Min. 51; Max. 77. Sunshine: 12 hours 36 minutes. Temperature, noon Tuesday, 68.

BELGRADE, Yugoslavia (AP)—A spokesman within the Yugoslav government, commenting on the shooting down of an unarmed U.S. transport plane Monday, and the forcing of another to land earlier, said today "our pilots did the right thing."

"They did nothing which was not in co-ordination with our own and international rights," said the spokesman, who declined to be quoted by name. The government itself refused official comment.

A person who saw the second C-47 attacked Monday said the big transport went down spiraling in black smoke during an attack by two Yugoslav fighters. Four or five cannon shots could be heard. Only two parachutes were seen to open from the plane, which carried five crewmen. No passengers, mail or cargo was aboard.

It was not immediately clear over what national territory the plane was attacked.

The witness said a large column of black smoke arose from the Julian Alps where the transport came down, indicating it exploded.

U.S. embassy officials, who called the earlier attack "wicked, inexcusable and deliberate," said they were investigating the new incident, but that Yugoslav military authorities declined to give any information.

Outrageous Act, Says Spokesman For U.S. State Department

WASHINGTON (AP)—Under Secretary of State Acheson, in charge of the State Department in the absence of Secretary Byrnes, today bluntly denounced a Yugoslav attack on a U.S. plane as "an outrageous performance."

Acheson made this characterization as the United States handed the Yugoslav Government a new and emphatic protest—the third disclosed in two days.

Acheson took the unusual course of permitting reporters at his news conference to quote him directly on the phrase "outrageous performance" and lashed out at Yugoslavia's treatment of planes in the area near Trieste by saying it was not the type of action one would expect from a friendly country.

The latest U.S. note said:

"It would be assumed that the authorities of Yugoslavia would wish to render a maximum of assistance and succor to aircraft of a friendly nation when the latter are forced by the hazards of navigation in bad weather over dangerous mountain barriers to deviate from their course and seek bearings over Yugoslav territory."

"On the contrary," the note continued, "Yugoslav fighter aircraft have seen fit without previous warning to take aggressive action against such a United States transport plane, the identification of which was clearly apparent from its markings, and have forced it to crash land."

C.P.R. Line Clear After Rock Slide East Of Field

CALGARY (CP)—The main line of the C.P.R. was opened today when the last trace of the mud and rock slide that blocked the track and the Trans-Canada Highway about 12 miles east of Field, B.C., was cleared at 2:15 a.m.

No. 1 train, westbound, was the first train over the track and is expected to arrive on time in Vancouver at 10 tonight. No. 2, eastbound, arrived in Calgary at 12:55 noon.

Normal traffic was resumed immediately the last trace of the mud slide was removed, one of the largest in the railway's history.

The plane was flying from Vienna to Udine in Italy, a regular run of the European air transport service.

Meanwhile diplomats looked to Marshal Tito himself today for an explanation of the incident.

(In Washington, the United States State Department, revealing a state of near war between American and Yugoslav troops at Trieste, accused Yugoslav forces of making illegal forays into the U.S. occupation zone and of unprovoked attacks on American soldiers.)

(The British Foreign Office in London said it had protested in the strongest terms against invasion of the Allied zone and attacks on British and U.S. troops.)

The transport was the second United States craft reported missing over Yugoslavia, this month, on the Vienna to Udine, Italy, run of the European air transport service. The other, also a C-47, was forced to land under gunfire Aug. 9.

after wounding one of its passengers.

"Subsequently, Yugoslav authorities have detained the plane, its crew and passengers and refused to permit American consular officers access to the plane or personnel until specific representations were made by the United States Embassy to the latter effect."

DEMAND RELEASE

The note said that "the Embassy is instructed to protest most emphatically against this action and attitude of the Yugoslav authorities, to renew the United States demand for immediate release of the passengers and crew now able to travel, and in conclusion to request an urgent Yugoslav statement whether in the future the United States can expect that the Yugoslav government will accord the usual courtesies, including the right of innocent passage over Yugoslav territory to United States aircraft when stress of weather necessitates such deviation from regular routes."

U.S. Consul Here Posted To China

Troy L. Perkins, United States Consul in Victoria for the last year and a half, has received a posting to Nanking, China, Waldo E. Bailey, Consul at Vancouver, said today.

Mr. Bailey himself will shortly be transferred to Saudi Arabia. For a few days he has been relieving Mr. Perkins here, while Mr. Perkins has been ill in hospital.

Mr. Perkins, with his wife and two sons, probably will take a leave before proceeding to China, Mr. Bailey said. He has spent most of his career in China, and speaks, reads and writes the language.

Order Restored

CALCUTTA (AP)—Military and police units, working their way through the blood-stained streets of Calcutta, restored a measure of order today in this weary city where an estimated 3,000 men, women and children were killed in four days of fighting between Hindus and Moslems. Shaking off the terror and hysteria which had gripped them since last Friday, the more than 2,000,000 inhabitants of the city found they faced the threat of starvation and disease.

Canada's Prunes, Raisins
To Be Bought In Bulk

OTTAWA (CP)—The Commodity Prices Stabilization Corporation will buy in bulk Canada's requirements of prunes, raisins and currants for the next season as a result of the recent action by the International Emergency Food Council in removing all dried fruits from international allocation for the 1946-47 marketing year, the Prices Board announced Monday.

The decision to continue the bulk purchase plan on these com-

Change Of Policy Expected
To Continue C.P.A. Rail Tie-Up

OTTAWA (CP)—Exploitation of transcontinental and international air services will remain the sole field of the government-controlled Trans-Canada Air Lines, an official said today.

He had been asked to comment on the announcement in the Commons Saturday by Reconstruction Minister Howe that the effective date when the railways were to have been advanced a year to May, 1947, and in the meantime he had changed his mind and personally favored continuation of railway-air line affiliation.

This is taken to mean the Government is going to change its 1944 policy and allow railways to retain airline affiliations.

NO OTHER CHANGES

The official was asked whether Mr. Howe's statement meant any relaxation from the basic government policy prescribing that the T.C.A. shall have Canadian monopoly in cross-Canada and cross-border services.

"I am certain the government visualizes no further departure from its original stand which roughly gave 'horizontal' and in-

ternational development to T.C.A. and 'vertical' or feeder line development to Canadian Pacific, Maritime Central and similar airlines," he said. "In other words, C.P.A. and other private lines are still out of the transcontinental and international picture."

"Today," Mr. Howe had added, "C.P.A. finds it has a sufficient task to develop the parts of Canada for which it was then and now is responsible for giving service, with the result that any new airlines that care to enter the business and are able to finance operations, can find a scope for their activities in parts of Canada not at present served."

C.P.A. several years ago, bought the holdings of a group of financially unstable lines mostly connecting isolated northern mining areas with the main trunk air and rail lines. They developed an efficient service and now run about 20 regular schedule services ranging from the west and the Vancouver to Fairbanks, Alaska, route in the north-west to the Montreal to Bale Comeau, Que., route in the north-east.

B.C.E.R. Official
Says Workers' Vote
Was Influenced

VANCOUVER (CP)—Misrepresentation of hospitalization and pensions plans was a factor in influencing the membership of the A.F.L. Street Railway-men's Union to vote down an agreement offered them by the B.C. Electric Railway Company in July, L. B. Jack, B.C.E.R. general secretary, charged Monday as he opened the company's presentation in the Eades hearing.

A mysterious notice, titled "Why you should vote 'no' on the agreement" figured prominently in discussions at the afternoon session of the inquiry.

Introduction of it into the record was opposed at first by H. P. Melnikow, representative of the union, but he withdrew his objection when it was made clear the union was not being charged with responsibility for the notice.

The notice, which Mr. Jack described as "somewhat libelous and certainly scurrilous," was distributed among the membership of the union, he claimed.

George Morrison, chairman of the union advisory board, denied having had anything to do with

the notice, although he admitted he had heard of it.

Mr. Jack maintained that in view of Morrison's earlier admission that "some confusion" existed over the benevolent plans, the anonymous notice influenced the close vote.

The notice, he argued, misrepresented the plans.

No Diseases From
Vancouver Pigeons

VANCOUVER (CP)—Vancouver's pigeons have come through a second medical examination with a clear record.

Following a report from the Dominion laboratory of hygiene at Kamloops that the first group of 20 Vancouver pigeons examined were disease free, Vancouver health authorities sent up a second group. It was announced Monday no trace of disease had been found in the second group, either.

Organs taken from the birds are tested for ornithosis, a malady related to parrot fever. In some eastern cities, pigeons have been held responsible for the spread of the disease to human beings. There is no evidence yet that this is the case in Vancouver, but health authorities say further checks will be made periodically.

Weather

High-level thunderstorms which developed last night over the lower mainland are expected to spread northward over the southern half tonight. An outbreak of Pacific air approaching the northern coast is expected to give cloudy skies and rain over the northern portion of the province tonight and Wednesday. Thermometers climbed to 90 at several places in the province yesterday, reaching 99 at Lytton and a repeat performance is expected again today.

Victoria and vicinity—Clear with variable cloudiness developing this evening. Wednesday clear. Southwesterly winds, 15 miles per hour, becoming 20 this afternoon, and decreasing to 10 overnight, then increasing to 20 Wednesday afternoon. Little change in temperature.

Vancouver and vicinity, Georgia Strait—Clear, variable cloudiness developing this evening and widely scattered thunderstorms during the night. Wednesday clear. Northwesterly winds, 10 miles per hour, reaching 15 in the afternoon. Little change in temperature.

West Coast Vancouver Island—Clear today except for fog patches occasionally drifting on and by evening Barkley Sound regions. Wednesday clear southern half but becoming cloudy, northern districts, with widely scattered showers by afternoon this area. Northwesterly winds, 10 miles per hour, becoming southeasterly 15, northern districts, early Wednesday. Little change in temperature.

Ottawa, B.C. Agree
On Veterans' Land

OTTAWA (CP)—Veterans' Minister Mackenzie today announced an agreement between the Dominion and British Columbia governments for settling veterans on British Columbia provincial crown lands.

Mr. Mackenzie said the province had undertaken to issue a grant on behalf of each veteran for an area not exceeding 160 acres, the title to be held in trust by the Veterans' Land Act director for 10 years, during which time the veteran is to fulfill modest development requirements.

These provincial lands, which are available now for selection, are in the Kootenay and north central districts, along the Canadian National line between Prince Rupert and Prince George, in coast areas south of Prince Rupert and on northern Vancouver Island.

Agreements concerning settlement of veterans on Provincial Crown Lands now have been reached with all provinces except Quebec, Nova Scotia and Prince Edward Island.

No Proof Canadians
Involved In Murder

LONDON (CP)—Slides were flashed on motion picture screens in theatres in London's Putney area Monday night asking that two girls, believed to have been out with three Canadian soldiers Saturday night, come forward to help police in the investigation of the slaying of Lennard Warrens the same night.

Canadian Provost authorities said there still is no foundation for the belief that Canadians were involved in the death of the office clerk other than a statement by a woman who lives near the spot where the body was found. She said she had seen three soldiers running near the scene of the crime.

"At that time of night how can anyone say that a soldier is British, Polish or Canadian unless one had a good look and heard him speak?" A Provost officer asked.

However, Canadian special investigation service personnel have begun a round-up of all men absent without leave to check on their whereabouts when the crime was committed.

SWEET CORN is SWEETER at SAFEWAY
... because the corn pickers get up early

Sweet corn for Safeway must be picked in the cool of the morning, before the heat of the sun begins to rob the corn of its tender, juicy goodness. Early in the day, the pickers have the ripe, full-kernelled ears safely out of the field and on their refrigerated way to your table. It's another way we make sure you get produce in a "just right" condition for best-ever eating.

Grapes	Seedless sweet	lb.	23c
Lemons	Sunkist, thin-skinned,	2 lbs.	25c
Onions	Silverskin	2 lbs.	25c
Peppers	Pickling	lb.	19c
Oranges	Local Green	lb.	19c
Tomatoes	Sunkist, very juicy, thin-skinned	2 lbs.	23c
Cucumbers	Okanagan Field	2 lbs.	23c
Cantaloupes	For slicing	2 lbs.	15c
Cucumbers	Jumbo, firm thin-skinned	4 lbs.	25c
	Pickling, crisp	2 lbs.	19c

4 ways to enjoy fresh sweet corn

ROASTED OR BROILED CORN—Place husked, cleaned, young, tender corn brushed with melted butter on broiler rack about 3 inches below broiler unit. Broil about 10 minutes, or until toasty brown, brushing with butter and turning frequently as it broils. Serve hot.

BARBECUED CORN—Try this on your outdoor barbecue. Pull husks back from young, tender corn and remove silks, but leave on at least one layer of husks. Sprinkle or dip in water. Place on grill above glowing coals; roast about 10 minutes, or until tender, turning frequently. Leaving the husk on the corn allows it to steam, retaining full flavor and tenderness.

SAUTEED CORN—Cut corn from cob. In frying pan melt a small amount of butter or drippings. Sauté corn about 10 minutes, stirring frequently. Add a little green pepper, if desired. Season to taste with salt and pepper and a tablespoon or two of cream.

FRESH CORN PUDDING
An old favorite that almost everyone likes.
2 cups corn, cut from 1 tsp. salt
cob (approximately) 1/2 tsp. pepper
5 medium-size ears) 1/2 cup finely
2 eggs, beaten chopped green
4 tps. melted butter pepper
2-cups milk 1/2 cup grated
cheese
Mix corn, eggs, milk, green pepper, salt, pepper and butter together in a large bowl. Pour into a well-greased casserole. Sprinkle cheese over top. Set casserole in pan containing about 1 inch of hot water. Bake about 45 minutes in a moderate (350° F.) oven, or until tip of sharp knife inserted in center comes out clean. Serves 6.

ADVERTISE IN THE TIMES

Veteran Newspaperman, Col. Charles Diehl, Dies
SAN ANTONIO, Tex. (AP)—Col. Charles S. Diehl, former assistant general manager of the Associated Press and publisher of the San Antonio Light from 1911 until 1924, died here Monday. He was 92 years old. One of Diehl's early "scoops" was an interview with Sitting Bull in 1877. He had to rush his story 240 miles by pony courier to a telegraph office.

Britain, U.S. Support Turkey's Rebuff To Soviet On Dardanelles

By JOHN M. HIGHTOWER
WASHINGTON (AP)—The United States and Great Britain have decided to meet Russia squarely on the issue of the Dardanelles.

(A Foreign Office spokesman in London said France had joined the United States and Britain in expressing to Russia unqualified opposition to Soviet proposals for sharing with Turkey the military control of the straits. A copy of the French note to Russia had been sent to Britain, Turkey, and the United States, he said. An informed government source in London predicted that an international conference, with the United States represented, would be called on the Dardanelles this year.)

In a cards-on-the-table gesture, this country already has informed Moscow that it is flatly opposed to the Soviet demands. Thus three big powers are siding firmly with Turkey, current guardian of the Dardanelles, on whom Russia has served two highly unpalatable demands:

1. That the straits should be jointly defended by Turkish and Soviet forces, and
2. That future control policies should be laid down by agreement among the Black Sea powers alone.

To the first demand, the United States is said to have objected on the ground that it virtually would mean granting the Soviet Union military bases in the straits.

And because Turkey and Russia are the principal Black Sea powers, the second point was said to have been rejected because of fears that Russia would be able to dominate the smaller country on any major issue.

The Montreux Treaty, which governs control of the waterway, currently gives Turkey the right to bar passage of warships of any country during time of war.

U.S. State Secretary Byrnes, however, has declared that the United States is willing to back Russia in any request for unlimited transit rights for her war and merchant ships at all times.

Fishermen's Club Chooses Officers

CAMPBELL RIVER — The Club of British Columbia elected George I. Warren, Victoria, president, and A. N. Wolverton, Vancouver, vice-president, at its 23rd annual meeting here. Tod Powell, fish and game editor of the San Francisco Chronicle, was elected secretary with Wallace H. MacMillan, Victoria, honorary president.

Chosen for the executive committee were Dr. R. L. Schut, Bremerton; Dr. T. Torland, Seattle; Mrs. Wolverton, Mr. MacMillan and Mr. Warren. Forty-one new members were admitted. Each had qualified for membership by landing a Tye salmon of 30 pounds or more with light tackle since the last annual meeting. There are now more than 600 active members in the organization.

Nanaimo Seeks New Post Office

NANAIMO — Federal authorities will be asked by Nanaimo for a new post office, building according to a decision by the city council. Overcrowding in the present building is the reason.

Ald. John Thompson and fire wardens were given permission to go ahead with plans for modernization of the fire hall. Improvements will include two front doors instead of one, modernization of the building front and the main floor and tearing down the tower.

City Manager Jack Shepherd told the meeting the cemetery looked like a picnic ground because of the number of people idling there. His remark came after Mayor George Muir reported complaints against sprinkling while visitors were in the cemetery.

Council decided a building code and municipal inspector for the city unnecessary after hearing a request from William Brankston, secretary of the United Brotherhood of Carpenters. It was noted that a provincial town-planning act regulated construction.

Terrier Makes Trip Alone To Mainland
Bill Greenfield, Nanaimo, was lost in admiration for his seven-year-old terrier, Skipper, when Skipper, supposedly safe at home in the Vancouver Island city where Bill had left him, turned up in the Kitsilano district, Vancouver, to rejoin his master.

Bill left Nanaimo Friday afternoon by boat to visit his aunt in Kitsilano and by the evening, Skipper was missed from home, only to turn up again on the mainland Saturday evening.

Only explanation offered is that of Frank Greenfield, Bill's father, who believes Skipper stowed away on the Vancouver boat and trailed his master from the Vancouver wharf to the aunt's home.

Bill had to pay Skipper's fare home, but did not mind, because he had decided "I've got the smartest dog in the world."

Talks Continue In Mine Strike

Demands of the United Mine Workers of America, Local 113, will be presented to the Domestic Coal Operators' Association, Wednesday, in the dispute involving Vancouver Island coal miners.

Negotiations continued Monday between the local and the Bituminous Coal Operators' Association. No statement was expected until a tentative agreement is reached by both parties.

It was announced Saturday operators had rejected union requests for wage increases of \$2.50 a day; a 5-cent per ton royalty welfare fund and alterations in work week hours.

Teachers Appointed To Duncan Schools

DUNCAN — School Trustees appointed J. Archibald, Vancouver engineer, to make a survey of the Evans property which they have considered buying for the new school. They also requested the Universal Appraisal Company of Vancouver to value school buildings in school district No. 65.

Resignations were received from J. R. S. Warr, Mrs. H. Campbell, Miss D. Trainor and Miss M. Farr. Probationary appointments to the elementary school staffs were Mrs. W. M. Nicholson, Mrs. A. J. Brandner, Mrs. M. A. Herriges and Mrs. J. Reid.

Tenders were called for transportation of pupils by bus to Fairbridge Farm School. It was also decided to ask for road improvements on the route.

Expresses Opinion Engine Exploded

NANAIMO (CP)—John Kerone, general foreman of the Walker Logging Company, told a coroner's jury here Monday that he heard a "sort of explosion" as a runaway truck, with Cyril A. Filgate of Cobble Hill at the wheel, raced down a Mount Hall road, 17 miles west of Ladysmith.

Filgate was killed, trapped in the truck's cab, last Wednesday, and it took four hours to remove the body from the wreckage after the truck had smashed into a tree.

Kerone expressed a theory that the engine had exploded when it exceeded its revolution limits, blowing the fly-wheel to bits and killing the driver before it piled against the tree.

The jury returned a verdict of accidental death.

Has Eye Operation

LONDON (CP)—Dr. Chaim Weizmann, 73-year-old world president of the Jewish Agency, is in a satisfactory condition following an eye operation in a London hospital, the Agency reported Monday. He is to undergo at least one other operation.

Many New Type Movie Theatres To Be Built Across Canada

TORONTO (CP)—The theatre of tomorrow, a drawing board dream for the last six years, is being built on corner lots in cities and towns all across Canada. Complete with snack bar and spacious floors, more than 35 new motion picture theatres will be built during the next 10 years, a Canadian Press survey showed today.

At an estimated cost of approximately \$45,000,000, the theatres will seat almost 200,000 people. In addition more than 40 theatres are scheduled for immediate renovation and most distributing chains plan complete renovation of all existing theatres as materials become available.

Safety devices, such as electronic smoke detectors which shut off the air fans and warn operators of the first wisp of smoke will reduce fire hazard to a minimum.

Included in new construction are several drive-in theatres. Design has been revolutionized—the new trend being to reduce seating accommodation and devote more space to lounges, restaurants, gardens and shrubs. Instead of the front of the building being covered with advertising pictures, ever-changing stills or trailers will be shown.

One chain plans to erect 64 new buildings, mainly of the neighborhood variety, seating approximately 1,500 people each. But even the smaller theatres are to be equipped with all the new innovations, ranging from filters to free the air of dust to all-glass doors and built-in gardens.

Pearkes Urges Canada Make Wider Preparations For Defence
OTTAWA (CP)—The Commons, after a day given to discussion of naval and army affairs, turned today to labor.

Monday's sittings were devoted to consideration of defence estimates while one of the first items on today's agenda was the report of the industrial relations committee, coupled with Labor Department estimates.

The debate Monday brought from Maj.-Gen. G. R. Pearkes, V.C., P.C., Nanaimo, former divisional commander and Pacific coast chief, the pointed warning that should a third great war develop Canada would be the battleground and it should be prepared to defend itself.

That theme of a Canadian defence against modern warfare, echoed by other speakers from the Progressive Conservative benches, contrasted with the position taken by the C.C.F.

Capt. John Probe, C.C.F., Regina City, in a keynote speech for that group said Canada's only hope of defence was to co-operate in a United Nations force.

FORESEES FAILURE
The C.C.F. argument was criticized by John Blackmore, S.C., Lethbridge, Alta., who predicted the United Nations would be no more successful than the League of Nations. He said Gen. Pearkes was taking a realistic attitude.

Progressive Conservative members expressed some concern about the organization of the brigade group which, they were told, would include something over 7,800 of the 25,000 men in the permanent army.

Gen. Pearkes said he was opposed to having units of the brigade group scattered across the country.

He predicted Canada would become a battlefield in another war on the assumption that there were only three powers with suf-

ficient strength to launch a war—Russia, the United States and the British Commonwealth.

"Take any combination of those you like and Canada will become a major theatre of war," he said.

Gen. Pearkes criticized Canada's withdrawal from the occupation force in Germany. Only from the press had it been possible to obtain any picture of Canada's overall defence plans.

OBLIGATION TO U.N.
Canada must take "every practical step" to be ready for her obligations under the United Nations.

He enumerated suggestions of the past, none of which had been acted upon.

Location of some of the new military headquarters indicated a lack of proper co-ordination, he said. While the three services had all had wartime headquarters at Jericho Beach, Vancouver, the air force now was there, the army at Edmonton and the navy at Esquimalt.

Flier Survives Wild River Ride

CHELAN, Wash. (AP)—An amateur Chelan flier survived a forced landing in the Columbia River and a wild ride down the stream on one of the seaplane's pontoons late Monday.

Walter Dorsett, 32, emerged uninjured several miles downstream and described his safe survival as "a miracle." His valiant efforts to save the rented plane, however, failed, and it was wrecked along the east shore.

Once, about three miles below where he landed, Dorsett left his pontoon perch and swam to a rope which men threw from shore. He fastened it to the plane, but the men couldn't hold it and had to let go.

Several miles farther, the plane

drifted close to shore. Dorsett swam to a rock and secured the rope, but it broke and he gave up the battle.

Dorsett, who earned a pilot's license this year, said the mishap occurred when he tried to take off after a river landing in the Chelan Airways plane.

"When I was about 150 feet in the air, the plane went into a dive; I don't know why," he said. "I couldn't pull out of the dive, so I cut the motor switch before the ship hit the water."

In the river ride, he said, "I was so busy trying to save the plane that I didn't have time to get excited."

Editor, Author Dies

CAPETOWN (Reuter) — Rev. Ernest Hermitage Day, D.D., 80, editor and author of many books on religion, church architecture and archaeology, died here Monday.

TOO MUCH DISCUSSION

FAINT SIGNS ARE BEGINNING TO AP-pear that the Peace Conference in Paris is about to tackle the real business for which the delegates from 21 nations were summoned—the consideration of draft treaties for five former enemy states. What a clause-by-clause debate will produce by way of acrimony is at the moment problematical. Judged by the amount of heat which more than three weeks of wrangling over purely procedural matters have generated, however, it will be little short of a miracle if the present deliberations can be satisfactorily concluded before the date set for the second meeting of the General Assembly of the United Nations next month.

Although several delegates to the Paris parley have voiced their impatience with the time-wasting conduct which has marked the contributions of the Soviet Union and two or three members of the "Slavic bloc," Mr. Mackenzie King, evidently keeping his feelings in check with a good deal of difficulty, let himself go with traditional propriety at the Dieppe anniversary ceremonies on Sunday. There had been "far too much discussion at the Peace Conference," and "not enough of the spirit exemplified here at this service, where we have people of different faiths commemorating together a Canadian exploit," and "I want my words to go to the people in Paris." Patently the Canadian Prime Minister was in no mood to add to the difficulties which have beset the conference in the Luxembourg Palace; the dignity with which he clothed his comments nevertheless robbed them of none of their meaning. Britain's Bevin, America's Byrnes, Australia's Evatt, and New Zealand's Jordan have exhibited, more bluntly, the same disgust with windy discourses on relatively unimportant matters.

He would be a pessimist indeed who fears for the consequences of the present conclave in the French capital. But some of the polemical exhibitions to which the conference itself and the world outside have been treated since the proceedings opened on July 29 will have caused many intelligent people to doubt the sanity—or, at least, the wisdom—of not a few of the delegates. And not even the seriously disturbed state of affairs in various parts of the world, conditions threatening the whole structure of global peace, seems to influence the men in charge at the Kremlin, by whose sanction the Moscow press and radio continue their attacks on the western democracies.

TIGHTENING THE NET

GOOD NEWS TO LAW ENFORCEMENT agencies in this community, and particularly welcome to the city department which pioneered the development in this district, is the announcement that Oak Bay is installing two-way radio equipment in its police office and plover cars. The action helps to close the circle through which felons might slip in escapes from crimes committed within the urban localities of Greater Victoria. At present the city, Saanich and navy cars are equipped, are able to follow information broadcast from headquarters, and can work in swift concert to hamstring criminals, including automobile thieves. The efficiency of the system has been proved repeatedly. The investment, as a discouraging element to wrongdoers, as well as a means of speedy apprehension where crimes are committed, will commend itself to all interested in the preservation of law and order.

In its present form, the communication system is another link in the Greater Victoria chain now being forged. It could be further strengthened by having provincial police vehicles operating in the environs similarly equipped.

MONARCHY OR REPUBLIC?

ON THE FIRST DAY OF SEPTEMBER the people of Greece will vote on a plebiscite to decide whether to re-establish the monarchy or whether to revert permanently to a Republic. Here is a case of history repeating itself with a vengeance—although the younger generation of the "Kingdom of Hellas" may have only a vague recollection of a former occasion when the fate of the ruling house rested on the knees of the gods—and the votes of the electors.

Those who know their history will recall that George the First of Greece was assassinated in the spring of 1913 and was succeeded by his son Constantine, who reigned until June, 1917, when he became persona non grata with the Allied powers and got marching orders which he could not disobey. His second son, Alexander, took over the throne and occupied it until his death in October, 1920. In December of that year, however, Constantine returned to Athens and reigned until public opinion forced his abdication in September, 1922—at the time of the Chanak crisis—and died in exile four months later. He was succeeded by his eldest son, George the Second, who, in turn, was forced to leave his country after ruling it for less than a year. By a plebiscite held in April, 1924, the Republic came into being; it continued until November, 1935, when an

other plebiscite taken in that month authorized the restoration of the monarchy—on an affirmative vote of 1,491,992 compared to 32,454 for the retention of the Republic. In accordance with that result, King George the Second, who now awaits September's verdict, returned to Greece as King of the Hellenes. He and his ministry escaped when the Germans overran the country in April, 1941, and set up a government-in-exile in London.

While the future form of the Greek constitution is the concern of the Greek nation alone, friends of the gallant people who gave Mussolini's well-equipped legions, a sound trouncing until German weight intervened are hoping that all parties will be enabled to register their vote fairly and freely, without threat or hindrance. Each elector will be given three ballot papers; one will be stamped with the name of the King; one will be stamped with any constitutional formula which the opposition may suggest, for example, with the word "Republic"; the third will be left blank to be filled in as each elector may desire. Blank ballot papers on which nothing is written will be counted as votes against the King.

STARTING ON WATER

ALL CITIZENS OF THIS COMMUNITY who have given the matter even cursory study have been under no illusions over the expense that would be entailed in improving the city's water system to meet current and future needs. Yesterday's announcement that \$4,250,000 may have to be spent over a period of 15 years should have occasioned little surprise. It is approximately 30 years since any major outlay was made on the system and in that time the growth of population and the demands for service have overtaken facilities established more than a quarter of a century ago.

The estimate of \$1,500,000 for new 36-inch pipelines from Japan Gulch to Humpback Reservoir and from Humpback to the city will be subject to intensive study before any action is taken on construction. When routes and costs have been worked out in detail, however, the project will, in the opinion of competent engineers, furnish a supply adequate to meet the needs of a population of about 124,000, a total which allows for an increase of approximately 25 per cent in the number of consumers. By means of the new lines, bulk delivery should be increased 66 per cent and the tunnel conduit from Sooke Lake to Goldstream can be left for another 10 years. At the end of that time the outlay required will be more fully justified as a means of reducing mounting costs for repair of the existing pipeline.

It is satisfying to note that the city's water department is already engaged on estimates and in preparation for detailed surveys of the first step in the expansion of the system. The community, of course, needs more water during the dry season and the time certainly is ripe for joint action on the issue by all the interested municipalities. It is obvious that the city itself will not be required to carry the entire load. Costs of the utility's development will be apportioned to the different consumers. Since each purchaser of water will be assessed through charges, it is fitting that each major group concerned should have representation on a board which could enter into the planning of the developments which are required.

POLIO AND B.C.

BRITISH COLUMBIA IS EXTREMELY fortunate, so far, that the provincial Department of Public Health has only three cases of infantile paralysis on its records—a figure considerably below the average for this period of the year. This gratifying condition should not be taken as an indication that this season, when the incidence of the disease is most dangerous, will leave this or any other community of the province free of new cases. Judged by the number of victims elsewhere, both in Canada and the United States, the present epidemic on this continent demands the utmost vigilance—particularly where children are concerned. Health authorities are to be commended for the simplicity of their warnings.

The courageous fight which the late President Roosevelt put up against infantile paralysis, and the eminent career which he achieved in spite of his affliction, served to focus public attention and public action on the disease to a remarkable degree. And though the prevention of the malady seems still to be somewhat of an unsolved mystery, the relief available to its sufferers is infinitely greater than it was a decade ago. Warnings of the moment, incidentally, call attention, in an inverse way, to the comparative lack of interest in other equally serious and much more prevalent diseases. Among these is rheumatic fever, which is the object of intensive research recently begun at Johns Hopkins University.

Apparently the medical profession is confronted with a number of problems in its effort to combat rheumatic fever. It is generally recognized that there is an immediate need to improve and increase its early recognition, for it is difficult of diagnosis. There is immediate need, too, we are told, of a much longer period of rest and supervised care for patients. And, of course, there is the ultimate need to minimize its damaging effects and, hopefully, to find and nullify its cause.

Inflation hits everything. Never before have prize-fight customers paid so much for so little.

Science note: Another way to prolong life is to say: "Joe has had too much. If he is going to drive, I'll stay here."

Fantastic Reading

By WILLIAM L. SHIRER

AN AMUSING attack on this reporter in the esteemed editorial columns of the New Yorker Staats-Zeitung und Herold has prompted me back to the rather melancholy task of seeing what the German-language press of this American republic is currently up to.

A check-up of some 25 German-language journals in the U.S.A. lets an American reporter with a little background concerning Germany and the Germans in for some fantastic reading. On the whole these curious publications are currently engaged in an earnest effort to save the (German) Fatherland from the consequences of Hitler's monumental failure. And how their hearts bleed for down-trodden Germany!

A GOOD MANY of them retain that pure brand of isolationism which was really based on a passionate desire that the United States refrain from helping to halt Germany's drive for world domination. And in reading them one finds a fantastic concoction of muddled feelings that are at once pro-German, anti-British, anti-French, hysterically anti-Russian, anti-Semitic, anti-Woodrow Wilson (for having got us into the first World War) and anti-Franklin Roosevelt (for having got us into the second German war). There is much scoffing at the childish naivete of their adopted homeland, especially at its conduct of foreign affairs. And the United Nations is pretty much laughed at.

The esteemed Detroit Abend Post, for example, cannot—even at this date—get over its passionate conviction that in the First World War it was the Kaiser who was right and that, as it said on May 14, "the Second World War was nothing but the necessary result of the first."

"At that time," it goes on to argue, "a peace Dictate (a term Hitler loved) was enforced upon the German people which they did not deserve, for later on it was almost generally admitted that the Kaiser did not want war. According to written proof, he did all he could to prevent the war altogether or, at least, to localize it. . . . The result was that the Allies bargained a Hitler for a Stresemann."

FOR THE CHICAGO ABEND POST, it was Woodrow Wilson who "drove this country into the war." This, it explains on May 26, "was followed by the peace Dictate of Versailles, forcibly followed, in turn, by the Second World War."

Not very logically, this Chicago zeitung feels that though the second war "forcibly followed" the first as a result of the Versailles Dictate, Franklin Roosevelt pulled the same trick on the republic as Woodrow Wilson.

Thus on June 6 it enlightens the few German-speaking subscribers in Chicago: "All the propaganda lies with which the people were fed during the war have come to light one after another. The people recognized with disgust and horror that the entry of the United States into the war came about under quite different circumstances than by the 'infamous attack on our navy by the Japanese. The people recognized also that President Roosevelt, despite his hypocritical assertions to the contrary, made the greatest efforts to drive this country into the war.'"

HITLER WAS RIGHT then, for that is exactly what he said. Indeed the Chicago Abend Post holds us responsible for much. "European economy," it says, "we ruined by the war and the Potsdam edict; our own economy, we ruined by greed, stupidity and short-sightedness."

The "ruin" of our American economy must be news to many even to those in Chicago who speak the German language, at a moment when production and employment is at its highest point in our history.

"This intemperateness, so typical of the German temper in our time, runs daily through the Chicago Abend Post. Thus it describes on May 26 the 'Roosevelt era' as 'one of the most disastrous episodes in the history of this country—and of many other countries as well.' Finally it asks: 'Who needs educating in democracy, the Americans or the Germans?'"

Not America, but the Germany of the Kaiser and of Hitler seems to signify for some of our German-language publications the land of freedom and of liberty.

Anti-Semitism is sly rather than overt. Typical is the Detroit Abend Post of May 30: "We saw a newspaper picture from Paris showing two men on a balcony with the caption: 'Secretary of State Byrnes and his adviser, Ben Cohen.' This explains a lot of things in our so-called foreign policy."

BUT THERE is nothing sly in the anti-British sentiments of some of our German papers. The British loan brought all their Teutonic furor to the surface.

"The impudence of the beggars," comments the Chicago Abend Post on June 4, "is becoming more and more colossal. . . . The British will never refund it." On May 15 the same esteemed journal is moved to remark of the British: "They hit us and kick us in the pants and we are supposed to make them billion dollar presents."

Not to be outdone, the Detroit Abend Post announces on May 28: "The Declaration of Independence has slowly become a museum piece. . . . For whatever England wants, our 'servants' in Washington and elsewhere are eager to do. . . . However, as long as Uncle Sam obediently backs her with his money and his blood, the good Uncle may become exhausted, but John Bull certainly will not."

We are spending a great deal of time, effort and money to educate the helpless Germans in Germany. How about a tiny effort to enlighten the Germans right here at home?

(Copyright, 1946, N.Y. Tribune, Inc.)

Letters To The Editor

WASTED BUTTER

Are they really in need of butter in England? I thought so until I read this item printed in the Victoria Times, July 31: "Jap Women Boil Butter."

Notified that butter from abroad was to be distributed, women of a Tokyo suburb, not at all sure what butter was, showed up to get it with beer bottles, sake bottles or stray bags. One expected to get oil, and another said she thought butter would be chips of wood. One woman tried boiling it. When she saw it turn to "oil," she figured the problem was solved. She told other housewives and soon every one in the neighborhood was busy boiling butter."

Surely this is a funny time to teach Japan to use butter if they have done without it all these years. I think England should come first. They certainly would not boil it. This sort of thing not only disgusts people, but drives them to see and be red.

GLOBAL SURVEY

By DEWITT MACKENZIE
Associated Press Foreign Affairs Analyst

One of the strange developments of these days of phenomena is the hostility which Yugoslavia has been displaying recently towards the United States, as witness current events.

The United States has sent two blistering notes to the Yugoslav government, charging, among other things, that on July 12 Yugoslav troops illegally entered the Allied zone around Trieste and fired without provocation on American forces investigating their presence. Washington also emphatically rejects the Yugoslav claim that United States was responsible for the incident.

Simultaneously with the disclosure about these notes, news came from Trieste that an American

insulation—investigating their presence. Washington also emphatically rejects the Yugoslav claim that United States was responsible for the incident.

can transport plane was missing after reporting that it was under tracer bullet and anti-aircraft fire somewhere near the Yugoslav frontier. Only 10 days earlier an American C-47 transport, which had become lost in a storm, was forced down, over Yugoslav territory by fighter planes which machine-gunned it. The crew and passengers—one of the latter being wounded—were interned and held incommunicado until last week-end when United States authorities finally were permitted to see them.

United States Ambassador Richard C. Patterson denounced the incident as "a wicked, inexcusable and deliberate attack on a friendly nation's airplane." He declared that "only by the grace of God and the expertise of the pilot" did the crew and passengers escape death.

Well now, why should a supposedly friendly Yugoslavia—whom Americans aided and for whom Americans fought in the war—now suddenly subject the United States to the all too familiar direct-action tactics which have been cropping up in various parts of the world?

It strikes me as a fair assumption that at least one reason for Tito's hostility is to impress on the United States and other Western Allies that outside interference isn't welcomed in the great Slavic bloc of which Yugoslavia is an important unit. It could be, too, that Belgrade is trying to

SIMPLY DELICIOUS and SIMPLE TO MAKE
RENNET-CUSTARDS

When your family tires of plain milk try them with a delightfully appetizing renet-custard made in a jiffy with "JUNKET" RENNET POWDER. Sweetened, and in six different flavours. Preserves all the high food value of milk and adds an appetizing, easy-to-make digestibility that's good for the whole family.

Mrs. Helen Rae, Rosario Street, Oak Bay, has left to take up residence in Toronto for a year, and is accompanied by her daughter Jean, and son Tom, the latter to attend the University of Toronto.

Double Ring Ceremony At Fairfield United

In a double ring ceremony in Fairfield United Church Monday evening, marriage vows were exchanged by Margaret Louise, youngest daughter of Mr. and Mrs. Pat Playne, 840 Vernon Avenue, and Gordon Ballantyne, only son of Mr. and Mrs. William Ballantyne of Tod Inlet.

A profusion of gladioli and summer flowers decorated the church where Rev. William Allan performed the ceremony. During the signing of the register Miss Dolly Woods sang a solo accompanied by the church organist.

For her wedding the bride chose a white satin gown embellished with rose design fashioned with bouffant skirt, fitted bodice with an off-the-shoulder line. Her silk net veil fell from a Mary Stuart headdress and she carried a shower bouquet of raptures roses, gardenias, carnations and sweet peas. A three-strand necklace of pearls, her only ornament, was the gift of the groom.

Mrs. George Robertson, the bride's sister, was matron of honor; the groom's sister, Miss Roberta Ballantyne and Miss Lenore Menzies were bridesmaids.

Mrs. Robertson was gowned in turquoise satin fashioned in the same style as her sister's wedding dress. The other attendants wore peach and ice blue satin respectively, styled with long basque bodices and bustled skirts. All wore half hats with chapel veils and carried arm bouquets of Picardy gladioli, carnations and asters to complement their ensembles.

Geoffrey Corey acted as best man and George Robertson and George Lifton were ushers.

At a reception held at the home of the bride's parents, Mrs. Eva Johnson, 1440 Clifford Street, mothers of the bridal couple assisted in receiving the guests. The bride's grandmother, Mrs. A. Harris, presided at the coffee urn while another aunt, Mrs. William Herbert, assisted in serving. The toast was proposed by George Bruce, an old family friend.

For a honeymoon in Vancouver Mrs. Ballantyne wore a brown tailored suit, gold gabardine topcoat with hat and accessories to match and gardenia corsage bouquet.

The young couple will live at 737 Vancouver for a short time and later will go to Ottawa where the groom will attend college.

Court Maple Leaf, 9202, A.O.F., sewing circle meeting, Thursday, home of Mrs. M. J. Fenerty, 1784 Denman Street.

Educationalist And Family Here

Pictured on the steps of the Empress Hotel are left to right, Mr. W. L. Aldridge, Miss Yvonne Aldridge, Mrs. Aldridge and Miss Violette Aldridge.

Great faith in the development and future of Canada and Brazil was expressed by W. L. Aldridge, educationalist from Rio de Janeiro, now visiting Victoria.

Mr. Aldridge, whose grandfather founded the Yeovil County School in Somerset, in 1838, founded the Aldridge College in Brazil with his father following their arrival in the South American country in 1898.

In 1944, Mr. Aldridge closed his school and is now on an extensive tour of Canada and the U.S. with his wife and two daughters.

Mr. and Mrs. Aldridge's elder daughter, Violette, is an ex-member of the British Wrens and served most of her time with that service in Alexandria, Egypt. She hopes to return to England to join the B.B.C., where her knowledge of Portuguese would be most useful. Miss Yvonne, Aldridge's second daughter, is a volunteer with the R.A.F., trained at Swift Current, became engaged there, and was reported missing in 1944.

St. Columba Church Scene Of Wedding

Canon H. V. Hitchcock performed the marriage ceremony in St. Columba Church, Strawberry Vale, which united Irene Margaret, daughter of Mrs. M. Heidebrecht, Vermilion, Alta., and John James Edward Gosnell, son of Mrs. N. Gosnell, 2531 Government Street, on Aug. 2.

The bride was given away by her mother and wore a floor-length gown of white satin with long sleeves and sweetheart neckline. Her long veil was caught to a headress trimmed with lily of the valley and orchids and she carried a shower bouquet of red roses, white carnations and sweetpeas.

Mrs. H. Taylor was matron of honor wearing a frock of blue net, and bridesmaid was Miss Irma Weiss, frocked in pink net. Both had short head veils and carried bouquets of pink carnations and rosebuds.

Returns To Ottawa After Holiday Here

Leaving Victoria today after a month spent in relaxation and rest, Miss Gladys Arnold returns to headquarters at Ottawa to continue her work in the important postwar program planned by the French Information Service.

Miss Arnold, who was press liaison officer for the Free French movement in Canada during the final years of the war, is well fitted for her present role of bringing a knowledge of the real France to Canadians and in turn, Canada to the people of France.

She was the only woman writer on the staff of Canadian Press in Europe at the beginning of the war and escaped from Paris only 24 hours before the Nazis marched in.

Dazed by a tragedy that had befallen a country she had grown to love in the five years she had been there, Miss Arnold went to London, where she met De Gaulle. She returned to Canada inspired by his cause, pledged full support to the movement and took up her work at the Free French Information office in Ottawa.

REVISITS FRANCE

In the spring of 1945 and again in fall, she was sent back to France by the Information Service on a 10-week tour of Normandy, Alsace Lorraine and other districts to bring back an eye-witness report on conditions in the country and primary needs of the people.

"In most districts clothing is needed worst," she says, "food comes next."

She pointed out that if the harvest is good 75 per cent of the food problem will be solved. "The clothing situation is quite different," she said. "Textile factories with other centres of production depend on coal. France lacks 25,000,000 tons of its needed coal. They can buy no more from Britain. The cost of United States coal is prohibitive. So the people of France look to the Ruhr with hope they will soon get more of that vast supply."

"In the meantime they go cold

schools are subsidized by the government and must pass rigid examinations before being allowed to operate.

On his travels in Canada, Mr. Aldridge, who is very impressed with the country, stopped at Swift Current, Sask., where he met the chief of police and his daughter who was to have married Mr. Aldridge's son. The son, a volunteer with the R.A.F., trained at Swift Current, became engaged there, and was reported missing in 1944.

Niece Of Lincoln Has 92nd Birthday

VANDELEUR, Ont. (CP)—Abraham Lincoln's grand-niece, Mrs. William Summers, the former Louisa Lincoln, will celebrate her 92nd birthday here tomorrow.

Mrs. Summers, who makes her home with her two sons, George and Norman, has lived 60 years in this Grey County town. Her husband, whom she married in 1874 in Crosby Township, Leeds County, died 26 years ago.

Mrs. Summers' father was Rufus Lincoln, nephew of Abraham Lincoln.

P.T.A. News

Farewell Party—Langford P.T.A. will hold a farewell party in the school auditorium Friday evening at 8, in honor of Miss Eileen N. Hinks, who has obtained a year's leave of absence after teaching school at Langford during the past five years.

Miss Gladys Arnold of the French Information Bureau, Ottawa, with her mother, Mrs. Arnold Sutcliffe of Cordova Bay, with whom she has been vacationing for the past month.

IN ORDER TO KEEP PRODUCTION GOING

Miss Arnold explained that one of the most pressing problems France has to face at the moment is the care of 210,000 orphans left charges of the state through the war.

MANY PROJECTS

One of her most recent projects has been sponsoring the adoption of many of these orphans by individuals, organizations and clubs in Canada. Through this means, clothing and the body building foods so greatly needed have been sent regularly to many French children.

"The letters that accompany these parcels have done almost more good than the food," Miss Arnold explains earnestly. "The feeling of solidarity that comes with this contact with the Canadian people, the knowledge that they are in the thoughts of some one person or group of persons has worked miracles."

Another of the many interests of the Information Bureau, a sideline Miss Arnold explains that has blossomed into much importance this year, is the finding of correspondents for boys and girls of high school age who are learning to speak English in France and to speak French in Canada.

Recently a class of 32 French girls between the ages of 16 and 17 wrote the French Information Service requesting pen pals in Canada. There are also many requests from young people here for pen pals in France.

Teacher Exchange Is Another Important Phase Of The Postwar Program

"We made a splendid start this year," Miss Arnold said. "When at the invitation of the French Government, a group of 20 Canadian teachers, representing every province in the Dominion, spent two months in France attending summer courses at the Sorbonne."

Madelon Atkinson Married In White

Madelon Lillian, elder daughter of Mr. and Mrs. Frank Atkinson, 3429 Bethune Avenue, formerly of Vermilion, Alta., exchanged nuptial vows Saturday evening in St. Mark's Church with Clifford George Pepper, son of Mr. and Mrs. C. G. Pepper, 3571 Calumet Avenue.

Given in marriage by her father, the bride wore a white floor-length gown fashioned with silk jersey bodice and double net skirt. Her veil cascaded to the hem of the gown from a Mary Stuart headdress and she carried a shower bouquet of red roses, white gladioli and swainsona. The bride's only jewelry was a double strand of pearls, the gift of the groom, and her grandmother's engagement ring.

Miss Enoch Atkinson attended her sister wearing a frock of aqua-mist taffeta with matching shoulder-length veil, and Miss Margaret Pepper, sister of the groom, wore a pale pink frock of embossed organdie and matching veil. Both carried colonial bouquets of carnations, swainsona and corn flowers; John Pepper was groomsmen and E. Drysdale ushered.

Rev. N. S. Noel performed the ceremony and Mrs. F. W. L. Moore was at the organ. During the signing of the register, Miss Rae E. Peasland sang "O Perfect Love."

Mothers of the couple welcomed many guests to a reception at the Wish Bone Grill. The bride and groom left later for a honeymoon at Crescent Beach and will return to reside in Victoria. Going away, the bride wore an afternoon frock of apple green with topcoat of deep burgundy, black hat and black plastic accessories.

Regret Cwacs Disband

OTTAWA (CP)—Disbandment of the Canadian Women's Army Corps was "regretted" in the Commons today by Maj.-Gen. G. R. Pearges, V.C., (P.C.—Nainaimo).

He suggested it would have been wise policy to keep a small nucleus of C.W.A.C. personnel in the permanent force as a basis on which to build again if there should ever be another war.

With Summer Salads—In place of rolls or toast serve tiny brown potato balls. Mix left-over mashed potatoes and egg, form into balls, roll in crumbs and fry. Or, sprinkle lightly with oil or drippings, and bake until crisp.

Court whist party, North Quadra Scout Hall, Thursday, 8 P.M. to Britannia Branch sewing meeting at home of Mrs. George Ree, 179 Bushby Street, Thursday at 7.

MY LUMBAGO IS A THING OF THE PAST

If you have suffered from lumbago, you'll understand why this man wants to pass on the good news as to how he found relief. He says: "I had a bad attack of lumbago. When I got into bed I had to stay in one position—I could not move for pain. I was given the tip to try Kruschen and I am very grateful for it. For after taking a few doses I felt some relief; and after taking one large bottle I am glad to say that my lumbago has become a thing of the past. And there is no trace of it coming back."—E.A.V. There are many instances in which the Kruschen saline treatment has brought happy relief... just as it did for Mr. E.A.V. So why not try Kruschen yourself? But be sure to take it faithfully for as long as needed and thereby give Kruschen a chance to overcome conditions in your body which have probably taken months... or even years, to develop. There is always a cause for lumbago and with many persons the pain can be traced to toxins or poisons in the system. Kruschen's action is to help your organs of elimination and thereby bring you relief. Kruschen Salts are procurable at all drug stores—25c. and 75c.

A. MacNamara
DEPUTY MINISTER

Seek Assistance To Harvest Crops

Assistance for farmers in harvesting their crops is sought by the National Employment Service from employers.

"You may have employees who will be glad to put in a few days on the farm as part of their vacation, thus earning some extra money. Others may be able to assist on a part-time basis," the service says in a letter being circulated.

It is pointed out that even though this is not a war year, the farm labor situation coupled with serious food shortages in many countries, makes it important that the practice of assisting farmers in harvesting their crops should continue.

"Your help may save people from starvation," the service says in an invitation to anyone interested, to call at the Victoria office at 534 Broughton Street.

Civic Picnic

Nearly 300 men, women and children participated in novelty races, dart throwing and bingo at the first annual basket picnic of the civic employees in six years, held at Deep Cove.

Gratitude for the cordial relations existing between employees and the City Council was expressed by Mayor George, who was introduced by Kenneth Reid, president of the City Hall Officials' Association.

There were horseshoe pitching and nail-driving contests, egg and spoon, cracker and balloon and thread and needle races.

Stan James was chairman of the picnic committee, which included T. G. Harris, W. Carter, E. Gropp, N. Kennedy and Miss M. Andrews.

New Stratofreighter Speeds At 350 M.P.H.

Plans for the Boeing Stratofreighter, double-deck, four-engine, all-cargo plane to operate at "an unprecedented low direct cost of 3.9 cents per ton-mile," were announced today by William M. Allen, Boeing Aircraft Co. president, in Seattle.

With a cargo volume nearly

twice that of the average railroad boxcar, the Stratofreighter will be capable of crossing the continent 20 times while a boxcar is making one trip. It will be a sister ship to Boeing's passenger-carrying Stratocruiser.

The 67½-ton plane will carry a maximum payload of 41,000 pounds at 300 to 350 miles an hour. It will contain four cargo

compartments, each separately accessible for maximum versatility. Advanced refrigeration and heating systems are planned, thermostatically controlled to provide special temperatures in each of the four compartments if desired.

Four 3,500-horsepower Pratt and Whitney Wasp Major engines will be standard equipment.

Consider Purchase Of Army Buildings At Lang Cove

Esquimalt Council at their meeting Monday evening agreed to approach War Assets in connection with the purchase of former army buildings at Lang Cove built on property owned by the municipality and leased to the Department of National Defence.

Council members decided to consider purchase of the buildings for community activities and to secure building materials for veterans. Reeve Thomas Hadfield pointed out that the Dockyard Branch of the Canadian Legion was anxious to obtain lumber for veterans' housing. He believed that any buildings bought for community activities would have to be used at Lang Cove as moving them would prove too expensive.

Councillor J. A. Ellis moved that a tender for \$950 for completion of dressing-rooms at Bullen Park be accepted if it were given in writing.

Following discussion of the increase in oil sludge in Esquimalt waters, the council approved a resolution of the Union Board of Health asking that the Minister of Marine and Fisheries be requested to place notices in pilot regulations asking that no bilge be pumped between Trial Island and Race Rocks.

Councillors E. J. Read and J. A. Christensen were appointed to attend the next meeting of the Union of B.C. Municipalities after Reeve Hadfield told the meeting he would be unable to attend.

It was decided to write the Greater Victoria School District board asking that a representative attend a council meeting to discuss matters arising out of the amalgamation of school districts.

On a motion by Councillor Read, members endorsed a resolution of the City Council emphasizing the need to reserve land at Gordon Head for an airport to meet Victoria's increasing air travel.

The council offering a letter from S. G. Weeks to offer to purchase a stove in the Lampson Street School basement.

Esquimalt Buses Carry Full Loads

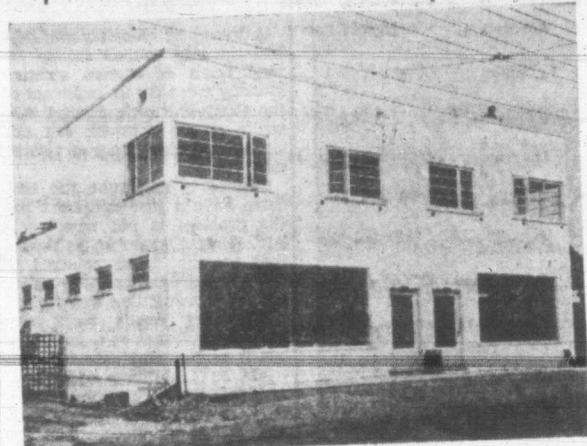

Popularity of the new all-bus transportation service for Esquimalt was evident Monday, according to traffic officials of the B.C. Electric Railway Company. Many Esquimalt residents, particularly those using the new main line from the city centre to the dockyard, expressed favor with the service. Their statements were borne out by the fact the buses carried near capacity loads.

"There were a few riders who had some difficulty distinguishing between the main line Esquimalt bus and the Naval Barracks bus but these were chiefly out-of-town, naval personnel who are not familiar with the city," said H. Rowland Halls, traffic superintendent. "Proper routing was insured for the most part, however, as we had traffic inspectors on hand to take care of the loading and direction of the new service."

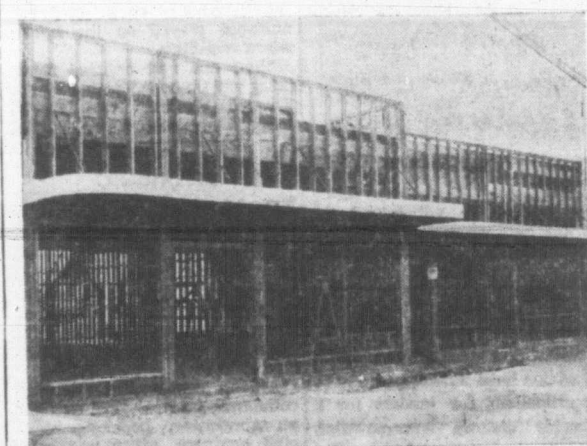

The company's new Canadian Brill buses are being used for the new routes which provide a 12-minute service throughout the day, commencing at 6 a.m. Supplementary street car service is provided by the Esquimalt car which runs only as far as Head Street. On this short run there was little traffic Monday.

Share With the Hungry — Cover cooked meat closely to prevent drying out and keep it cold.

Esquimalt Business District Expands

Several new stores and blocks are being added to Esquimalt's shopping district. Above is the new Medical-Dental Building opposite the Municipal Hall, Esquimalt Road, built by Philbrook and Butler for Bert Thomas, View Royal.

On the opposite side of the street this new block of stores is under construction. Owner is A. H. F. Stelck, who also is building a block of stores at Hillside Avenue and Quadra Street.

Canadian Legion May Demand Ottawa Hurry With Housing

An urgent appeal for Ottawa's help in cutting red tape and making former army hutsments available immediately for ex-servicemen and their families, backed up by a prediction that war veterans soon may take over the vacant hutsments themselves in desperation, is likely to be made at a meeting of the Canadian Legion Zone Council on Thursday night. It was indicated today.

While A. Palmer, executive secretary of the Citizens' Rehabilitation Council, said that the housing situation had reached such a serious stage as to demand that something be done immediately, Canadian Legion officers were giving closest attention to the problem.

Arrangements were made a month ago for the Canadian Legion to lease the former army huts at Tillicum and Carey Roads, through Saanich Council, to be converted into living quarters for veterans and their families. But the final authority to take over the huts is still awaited from Ottawa, according to Mr. Palmer.

"We have been weeks fighting through a mass of red tape, and we have not been able to reach our objective of making the hutsments available," Mr. Palmer said.

100 APPLICATIONS

The Citizens' Rehabilitation Council has more than 100 urgent applications for living accommodation on its books and many new applications coming in, Mr. Palmer said, and the Tillicum-Carey Road, Macaulay and Colwood hutsments, if converted, would provide living space for most of the war veterans pressing in need of housing. Meanwhile, he said, veterans and their families were living in inadequate quarters—in one case, a

chicken coop provided by a friend—and spending their savings on rents they could not afford.

He quoted the case of one naval officer with a wife and two children, obliged to rent auto court accommodation at \$7 a day because he could not find another place.

Little Centre Greeted Gifted French Actor

A capacity audience enthusiastically applauded subtle and clever character sketches by Andre Frere of the Paris stage. Prolonged applause expressed the delight of the listeners who represented a large proportion of the French group.

Mrs. Unthoff welcomed the guests on behalf of the Hon. Mark Kearley and the committee and expressed the honor felt in having so distinguished an artist on the Little Centre stage. Madame Renner Archibald also extended a welcome to him.

Miss Punderson of Le Camp Francis, Shawnigan Lake, in delightful manner gave brief explanations between each sketch.

After the show coffee and biscuits were served by the committee, assisted in serving by Mrs. Mutter, Mrs. Tullis, Miss Jennifer Hobbs, Miss Izard, Miss Joy Munday, Mrs. Kempster, Madame de la Hite, Miss Doris Ashdown and Mrs. Peter Hinton.

Engagements

Announcements to appear under this heading will be accepted at the Times Advertising Department. Minimum charge \$1.50 for 10 lines, and 15c for each additional line.

Mr. and Mrs. Ernest H. Smith, Prospect Lake, Saanich, announce the engagement of their daughter, Florence Winnifred, to Thomas William Hutchinson, son of Mr. W. E. Hutchinson, 2078 Charles Street, Vancouver, B.C., and the late Mrs. Hutchinson, Nanaimo, B.C. The wedding will take place at St. John's Church (Sept. 7 at 7:30 p.m.)

Playground Activities

OAK BAY

Oak Bay playground activities came to a close with two major events. Parents and friends gathered to see a demonstration of activities at Monterey School grounds. These included rhythm band and singing games conducted by George Bowers; tumbling taught by E. J. Costain and Mrs. L. J. Clarke; and folk dancing taught by Mrs. E. J. Costain and Miss Sheila Beckwith.

The Indian village made of clay by children under Miss Moyra Mulholland and Miss M. Johnson, included a log house, canoes, totems and Indian figures. These were arranged in the sand box and attracted much attention.

On tables samples of carpentry, finger painting, flower arrangements, water color paintings, scrap books and crayon work were displayed. Instructors in these projects were R. Tubbs, C. Wood, Mrs. Eric Greville-Jones and H. Moorhouse.

Corsages made by Mrs. Eric Greville-Jones, the instructors and the volunteer helpers.

Eric Greville-Jones, chairman, announced registrations this year had reached 329. Average daily attendance had been 100. Seventy-five boys and girls had been taught to swim at the Crystal Garden.

Saturday morning the supervisors were assisted by Hugh Farquhar, Lt.-Col. H. L. Sherwood, S. H. Mackey, I. B. Dixon, and K. R. Waterman in arranging races for about 200 children.

Mrs. H. A. Lyne and a committee of volunteer helpers served hot dogs and orangeade to the children.

TOLMIE PARK

Hansel and Gretel, fairy tale characters, came to life at Tolmie Park Saturday evening when the park's closing ceremonies were held. Singing, games, acrobatics, folk dancing and a display of hand-work together with the pantomime comprised the program in which 85 children took part.

E. McLean acted as master of ceremonies and introduced the guest speakers; E. C. Head, president of Saanich playground committee, and Mrs. Head.

Mrs. Frank Farrow, supervisor, was presented with a pair of gold earrings and bouquets of gladioli on behalf of the parents and children.

A vote of thanks was extended

"SALADA" TEA

Outstanding Quality

to all volunteer worker who helped to make the playground a success, and corsages, made by the children, were presented to the mothers.

SAANICH

Playgrounds were recently closed at Craigflower, McKenzie Avenue and Strawberry Vale Community Hall. Dr. Henrietta Anderson, director of the Recreation Council of Greater Victoria, and E. C. Head, president of the Saanich Recreation Council, the supervisors and volunteer helpers were highly praised for the wonderful work that has been done this first year the playgrounds were in operation.

At Craigflower a costume parade was followed by a tumbling display under the direction of Del McLeod who was also the boxing instructor for the boys. Pantomimes and singing games were conducted by the supervisor, Margaret Orman.

Mrs. W. W. McGill of the children's library and Mrs. C. Buhlin were judges during the afternoon. Prizes were awarded by Canon Greenhalgh to Marilyn Pearson and Alan Neilson for citizenship; to Louise Vannier and Glen Atkinson for the junior class. Costume prize winners were: Velva Pearson, Barry Phil-

brook, Glen Atkinson, Linda Brown, Susan Atkinson, Georgina Pearson, Bryan Wilson, Don Mayo, Marian Alexander and Neil McKinty.

Corsages were presented to mothers who had been very helpful during the summer.

"It's Alloyed" Means LONGER MOTOR LIFE

THAT'S exactly why Peerless Motor Oil, since "It's Alloyed", is more than a GOOD lubricant. It's the BEST!

Developed after intensive war research, this remarkable "alloying" process builds up the resistance of this superior lubricant to heat and pressure. This means it stays oil longer, giving extra protection.

For better performance at lower cost, you, too, should switch to Peerless Motor Oil. Unexcelled products, together with the friendly, efficient service of your B-A dealer, makes B-A the first choice with most motorists.

"It's Alloyed" THAT'S WHY PEERLESS STAYS OIL LONGER

THE BRITISH AMERICAN OIL COMPANY LIMITED

Council Favors Supply Mains To Save Money On Water Tunnel

Construction of supply mains which would postpone the spending of \$1,020,000 in interest charges on a new tunnel over a 15-year period and setting up of a reserve fund for needed water works, was advocated by Ald. J. A. Worthington, chairman of the water board at the City Council meeting, Monday.

Recommendations that the water commissioner be instructed to make a detailed survey of supply mains and the construction of cross connection between Japan Gulch and Humpback Reservoir, and (2) construction of new supply main from Humpback Reservoir to the city, and from Burnside Road and Washington Avenue, by way of Finlayson and Hillside to Foul Bay Road, were adopted by council.

"On the basis of paying for the cost of a tunnel by the issuance of 50-year bonds, postponing the tunnel construction for the next 15 years means an immediate saving in interest charges of \$1,020,000," he said.

"The tunnel has got to come," said Ald. Worthington.

In the interests of economy, construction of the Sooke Lake Tunnel should be delayed as long as possible with safety, but the city should prepare to spend approximately \$4,250,000 on improvements and extensions to its main supply works in the next 15 years, F. C. Stewart, Vancouver consulting engineer, stated in a report considered by the City Council Monday.

"Present works above Japan Gulch and Humpback Reservoirs may suffice for the next 15 years but the tunnel will probably be required in that time," Mr. Stewart reported. "Final planning and construction would have to be started about 10 years from this date."

The improvement program would include:

1. Construction of a reservoir cross-connection and 2. construction of a new main from Humpback Reservoir to the city and the east branch, to cost roughly \$1,500,000.

3. Replacement of the Goldstream-Esquamalt pipe in larger size, some of which may last more than 15 years, to cost roughly \$1,000,000.

4. Construction of the Sooke Lake-Goldstream aqueduct (tunnel) at roughly \$1,750,000.

"This seems a lot of money, but it should be remembered that nothing has been spent on expansion for many years," said Mr. Stewart. "If adequate service and reasonable security are to be rendered, large expenditures cannot be avoided."

JAPAN GULCH FLOW

Postponing the construction of the Sooke Lake Tunnel can be done only by using Japan Gulch water to a greater extent during the summer months, which necessitates the storage of greater quantities during the wet season for that purpose, he said.

"Average usage from Goldstream through the year greater than the equivalent of 9.3 million gallons per day, cannot be figured

on, as that is the estimated available yield of that watershed in drier years."

Capacity of existing works above Japan Gulch and Humpback Reservoir is limited by the yield of Goldstream Watershed and the capacity of the concrete pipe to deliver water from Sooke Lake. Maximum population on which may be supplied by these works in approximately their present condition, is about 124,000 according to Mr. Stewart's report.

At the estimated rate of growth, this population may be reached about the year 1964, he said.

"The program is dependent on the concrete pipe from Sooke Lake continuing in operation in approximately its present condition. Hundreds of the joints are leaking and some are broken. There seems no reason to suspect the line will fall apart in the next 15 years, but repairs to the joints and to the one remaining syphon are badly needed.

INADEQUATE SUPPLY LINE

Discussing supply lines, Mr. Stewart said that the steel pipes from Japan Gulch and Humpback Reservoirs were inadequate and the capacity of that part of the system should be increased as soon as possible. Humpback has a capacity for 125,000,000 gallons, he said.

"To simplify operation, minimize losses from Japan Gulch and feed Humpback reservoir in case of a prolonged shut-down of the concrete pipe line, an overflow cross-over from Japan Gulch to Humpback is proposed," he continued.

Having the reservoir cross-connection, it is proposed that the supply line capacity be increased by laying a second 36-inch pipe line from Humpback Reservoir to the city. The old Goldstream main is in poorer condition than the old 36-inch line and some stretches may require renewing in the next 10 years or so, said Mr. Stewart.

When the Goldstream main is re-laid the total capacity should be nearly 50,000,000 gallons a day, or more than double the present.

SUGGESTS NEW MAIN

All water supply to the city and Oak Bay passes through a very small area near the Fountain at the present time. To lessen the danger of a "bottleneck," Mr. Stewart advocated running a new main east near the northerly city boundary to feed the present 27-inch pipe at Cook and Summit Streets in case of emergency and continue east to Foul Bay Road as the principal supply line to Oak Bay. This action would strengthen the water supply within the city, also, he added.

"Oak Bay will require a reservoir in the vicinity of Mt. Tolmie Park to serve the high level areas of the Uplands and the northwest section of that municipality," he continued.

Town Planners Fight Move For Garage At Douglas and Humboldt

A recommendation that the northwest corner Humboldt and Douglas Streets be not rezoned from a commercial to garage area, to allow erection of a service station was made by Forrest L. Shaw, on behalf of the Town Planning Commission at Monday's City Council meeting.

An amendment calling for the rezoning, which was up for final passing, was referred to the public works and transportation committees for further consideration following Mr. Shaw's report.

"This is the most important zoning matter the council has put before the commission and we recommend the zoning be not changed," said Mr. Shaw. "Changing it to allow for a garage would leave the property wide open. Dry-cleaning, bag and carpet establishments, tire vulcanizing or veterinary establishments could be put there."

Discussing the matter from the standpoint of public need, Mr. Shaw said, there were eight service stations within 850 feet of the corner and he did not feel the public would suffer if another were not built. On the traffic angle he said it was a five-point corner and estimated that between 300 and 400 cars would go in and out of the premises in a day. He stated downtown property was getting scarce and the property should be left for structures such as hotels or apartments.

Speaking on behalf of McColl-Fontenac Oil Co. Ltd., who wished to erect the service station and storage, R. Weir said that only three of the eight serv-

ice stations mentioned by Mr. Shaw had storage facilities.

"You see tourist cars parked every night on every street," he said. "There is no one looking after people with cars at the Empress, Cathay, Sussex and Strathcona."

"No one will put a \$50,000 building on a back street," Mr. Weir said. Few people walk down that portion of Douglas for there are no stores.

Chief of Police J. A. McLellan said there was the difficulty of prospective customers driving across the street. He did not feel that they would go around the block. It will be only a short time before a traffic light is erected at the Humboldt-Douglas intersection, he said.

C. J. Harrington, speaking for McColl-Fontenac, told council that if a traffic light were installed, there would be no traffic snarl.

Tenders for various quantities of cast iron pipe, 4-inch to 12-inch, were accepted from National Iron Corporation for a total of \$55,680. Also accepted were tenders for gate valves totaling \$4,690.

Council adopted a recommendation that a billing machine be ordered for the waterworks department costing \$3,995. Delivery will be in 15 months. The city will acquire an army hutment at Colwood for use in Goldstream Park. Council learned that buildings Nos. 3 and 4 at Clover Point Camp were allocated to the Central Mortgage and Housing Ltd. for leasing to the city. The lease will include a clause to insure the buildings for salvage value during their occupancy by the city. Miss Sonja Kelgard will be em-

Victoria is experiencing some of the best weather of the summer at present and beaches and lakes are extremely popular. Children

played as a case worker on social welfare staff from Sept. 16.

Council authorized the water commissioner to install 10 4-inch fire hydrants and two 2-inch standpipes in Colwood District at \$2,410. Rental will be \$4 a month on each hydrant and \$16 a year on the standpipes.

P. Ballam was confirmed in his post of assistant plumbing inspector. City engineer was authorized to arrange necessary repairs to the causeway public float for \$390.

School Board of Greater Victoria will be charged \$100 rent a month for rooms in the City Hall from April 1, 1946. No rifle shooting will be permitted in Goldstream Park.

A by-law to enable shoe shops to close all day Wednesday will be prepared by the city solicitor following a petition from 81.8 per cent of the merchants for such action.

A motion that the Minister of Health and Registered Nurses' Association be urged to take immediate and effective steps to avoid aggravation of the present shortage of nurses situation, was introduced by Ald. F. G. Mulliner and approved by council. Michael D. Turyk was appointed assistant administrator in the social welfare department.

Following reading of a letter from the City Hall Employees' Association on the matter of personnel committee, Ald. H. M. Diggon asked that the matter be referred to the efficiency committee. The building inspector and his assistant were authorized to attend the Pacific Coast Building Officials Conference, at their 24th annual business meeting in Victoria, Sept. 17 to 20.

Land sales totaled \$7,236 with nine parcels valued at \$1,021 sold to veterans and 10 parcels at \$6,215 sold to other applicants. Better inspections of chimneys was sought by Mrs. A. Marshall in a letter.

R. Clarke Sr., writing on veterans' homes and the lumber shortage, was informed that only the federal authorities could order mills to supply lumber for homes rather than commercial buildings.

Permits for erection of two dwellings were issued at the City Hall today. One was to L. W. Woods for a dwelling at 3041 Albany, to cost \$5,500, and the other to A. J. Wilson for a dwelling at 119 Olive Street, to cost \$4,500.

Butchers' Plan For All-Day Wednesday Closing Approved

Butcher Shops Early Closing By-law compelling shops to remain closed all day Wednesday, was passed at the city council meeting Monday with Aldermen H. M. Diggon and B. J. Gadsden the only opponents.

"I take a different view to butcher shops than I do to shoe stores," said Ald. Diggon. "It is not compulsory on the part of the council to pass a by-law even though 75% of the licensees petition for it."

"Council has discretionary powers and I am not sure that the petitioners supply 75% of the trade to the public in the city."

He referred to the fact that meat was a perishable quantity and spoke also of the two meatless days, stating he feared the public would suffer.

Ald. R. A. C. Dewar said that many years ago people thought stores had to be open until 9 at night and all day Wednesday, but they get along fine now.

"If Ald. Diggon's plea is for the comfort of the people it doesn't hold water. People have been keeping meat over Sunday for years."

Voting for the by-law were: Acting Mayor Edward Williams and Aldermen J. A. Worthington, J. D. Hunter, Dewar, D. D. McTavish, W. L. Morgan and F. G. Mulliner.

Council instructed the city solicitor to prepare a by-law which would close boot shops all day Wednesday, following receipt of a letter from Army Supply Stores and others, which provided for the necessary 75% of the trade being of one mind on the subject.

Asks Council To Get Airport Land

A resolution asking that the city acquire land owned by the militia and navy departments and the Hudson's Bay Company, which was considered for the proposed Gordon Head airport, was introduced by Ald. B. J. Gadsden, chairman of the Greater Victoria Airport Committee, at the City Council meeting Monday, but the matter was laid on the table, pending more information.

A letter will be sent to Hon. C. D. Howe asking for further information on his proposals for the development of Patricia Bay as a joint military air base and commercial landing field with an improved highway connecting airfield and city.

Howe's letter is not concrete," said Ald. Gadsden. In reference to Mr. Howe's statement about Gordon Head as a major airport, Ald. Gadsden said at no time had the Gordon Head site been considered for anything but a municipal airport.

secretary, a stage manager, and truck drivers. Women available for employment include a dark room operator and a taxi driver.

Council Listens To Gorge Complaint Of Cinders And Ashes

A group of complainants who had the city council solidly behind them at council meeting Monday were the 21 residents of the Gorge-Burnside district who wrote of the sawdust, ash and cinder nuisance from a nearby mill.

"There is no doubt the residents have a just complaint but the problem is not new," said Ald. H. M. Diggon as he moved that the matter be referred to the fire warden and city solicitor for investigation and report.

"Constant repair work can keep the nuisance at a minimum but it cannot eliminate it."

Ald. F. G. Mulliner said "Many residents have nice homes there they should have protection." Ald. R. A. C. Dewar felt the situation could be improved. In one four to five-year period one mill spent \$20,000 trying to eliminate the nuisance, Ald. Diggon said. Ald. Dewar commented on the havoc the cinder and ash nuisance played on the housewives' washing.

"You can rest assured something will be done," acting Mayor Edward Williams told F. W. Johnson who headed a delegation.

Many Available For Variety Jobs

Experienced men and women in a wide variety of professions and trades are available in Victoria for immediate employment, Chas. A. Mudge, manager of the National Employment Office, said today.

Among men available are accountants, an analytical chemist, an auctioneer, bookkeepers, a civil engineer, office and sales clerks, a draughtsman, an electrical engineer, a mechanical engineer, a purchasing agent, a radio technician, a reporter, a

Call Tenders Soon

Belief that since all four municipalities have now approved the specifications for tenders for a Greater Victoria transportation system, the latter might be called within two or three weeks, was expressed Monday night by Ald. H. M. Diggon, chairman.

Time Lost In Strikes Unjustified, Howe Says

SUDBURY, Ont. (CP)—Labor disputes are making impossible the problems of postwar reconstruction in Canada, Reconstruction Minister Howe said Monday night in an address here, broadcast over a national network.

Mr. Howe declared: "The difference between labor and management is far too small to warrant the time lost by the workers. Worse still is the loss of imported raw materials that can be stockpiled only during the summer months."

"I can only hope that both sides can compromise their differences before the whole reconstruction program is wrecked."

How to Combat RHEUMATIC PAIN

Rheumatic pains may often be caused by excess uric acid, a blood impurity that should be extracted by the kidneys. If kidneys fail, and excess uric acid remains, it may cause severe discomfort and pain. Treat rheumatic pains by keeping your kidneys in good condition. Get and use Dodd's Kidney Pills. Dodd's help your kidneys get rid of trouble-making poisons and excess acids—help you feel better. See what Dodd's can do for you. 137

Harrison Fires Subpar 65 To Pace U.S. Golf

PORTLAND, Ore.—Shaving seven strokes off par with a 65, E. J. (Dutch) Harrison of Little Rock, Ark., headed the field in the opening round of the 36-hole qualifying trials of the National Professional Golfers' Association championship.

Harrison's 65 headlined an orgy of low scoring on the short but usually difficult Portland Club course. More than 20 of the 123 starters in the 1946 renewal of professional golf's exclusive and outstanding tournament got in below standard figures for the layout.

Harrison's fine round, a 32-33, was spun from a deft putting touch that enabled him to scramble out of wobbly fairway performances into front position for the day.

One fifty-footer went in for an eagle three on the 525-yard fifth hole and a twelve-footer bagged another eagle 3 on the 500-yard fifteenth.

Sneed, British open champion, carded a 34-38—72 and he couldn't drop a putt into a bucket.

HINES HAS 66

Treading on Harrison's heels after the first day's firing was veteran Jimmy Hines of Chicago, who put together a pair of 33's for a 66 on the 35-37—72 layout—6524 yards long.

Ben Hogan, Hershey, Pa., leading money winner of the year thus far, rattled off a 33-35—68.

Defending champion Byron Nelson, whose back hurts and who said he will not play much tournament golf after the current event, tacked up a 36-34—70 effort. Automatically qualified as the title holder, he will forego today's qualifying round.

Overshadowed in the par cracking derby was U.S. open champion Lloyd Mangrum of Chicago whose 36-37—73 was practically a duffer's performance by comparison.

College Professor Retains Trap Title

VANDALIA, O. (AP)—A 39-year-old University of Wisconsin chemistry professor, Vice Reinders of Waukesha, Wis., successfully defended his title of champion of state champions Monday at the 47th annual Grand American trap-shooting tournament here.

Reinders, the only shooter in Monday's record-breaking field of 946 to turn in a perfect score, cracked 100 targets in a row to retain his states' title.

Mrs. Ruth Knuth of Indianapolis, broke 96 of 100 to nudge out Ruth Gubert of Winchester, Va., by one target for the state women's championship.

Fastball Series For B Title Opens Tomorrow

Esquimalt Meat Market will play Chinese Students in the first game of the finals for the lower island senior B fastball championship tomorrow evening at Central Park. Starting time will be 6.30.

The market boys won the right to meet the students when they beat Dockyard Civil Service 5 to 1 in the second game of a best-of-three sectional series last evening.

The dockyard gang were leading 1 to 0 until the seventh inning when three runs were scored against them. Alf Jenkins knocked out a triple in the ninth to bring in the last two runs. Anscoff pitched for Esquimalt and Furmston for Dockyard.

WIN JUVENILE TITLE

In juvenile fastball play Oak Bay Athletic Club won the lower island championship by beating Langford 10 to 1 and 9 to 5 in a doubleheader at Langford Sunday.

The Oak Bay boys will play Alberni in a twin bill Sunday at Alberni in the first games of a best-of-three series for the island championship.

FINAL JUNIOR GAME

The third and final game for the junior championship will be played tomorrow night at Queens and Quadra starting at 6.30 between Black and White and Sooke.

The Black and Whites split a doubleheader Sunday with Sooke in the opening games of a best-of-three series. Sooke won the first game 8 to 6 and the locals came back to slam the out-of-towners 34 to 4.

In a Poodle Dog Cup knock-out fixture played last night at Central Park, K.V.'s beat Chinese Students 11 to 2. The winners scored eight runs in the last two innings.

28-Pound Salmon Wins Competition

Andy Stewart won first prize in the club salmon derby of the Eagles at Brentwood with a 28-pound spring. He was one of over 150 club members taking part in the competition. For his catch he received a rod and silver cup.

Other winners and their prizes were: Slim Silburn, 17 pounds, tackle box and tackle; G. Allen, 16½ pounds, leather vest; Clarke, 10½ pounds, coffee set; Bud Dunnett, 10 pounds, cork ends; Dave Donaldson, nine pounds, brush and comb set.

D. Woods with a 16-pound dog fish won \$10 in scrip. Bill Bridgwood won a reel for catching the most fish, eight grise. Hidden weight contest was won by W. Clare with a salmon weighing over eight pounds. Consolation prizes were won by S. C. Douglas, W. Arden, L. Elves and H. Simeson. Mrs. Pete Miller won a rowboat on a tombola.

Midget Baseball Title At Stake

Esquimalt Taxi moved into the finals for the midget division championship of the Minor Baseball Association when they beat Ker Electric 9 to 2 last night.

The Esquimalt boys play Blue Line Taxi tomorrow night starting at 6.15 in the first of a three-game series for the title.

Basketballers Hold Annual Meeting

Annual meeting of the Victoria and District Basketball Association will be held Friday, September 6, at the Douglas Hotel commencing at 6.30. It was announced last night by secretary Ivan Temple.

Election of officers and presentation of reports for last season are among the important items on the agenda.

Dog Show Tomorrow

Above is seen one of the many wire-haired fox terriers competing in the newly-formed Vancouver Island Terrier Association's first sanction show at the Crystal Garden tomorrow night commencing at 8 p.m.

In Big Motorcycle Show Tomorrow

Thrill-seekers attending the monster Victoria Motorcycle Club rodeo and race meet tomorrow evening at Langford Speedway will see these boys in action as well as many others. Left to right are: Jack Aiken, Bob Aiken, Al Mothershead, Ron Bissenden, Reg. Shanks, Dave White, Les Blow and Bill Waller. The show will get under way at 8.15. Races will be held on a kidney-shaped track recently constructed in the infield of the hard-surfaced auto race track. There'll be lots of trick riding and daring stunts performed in one of the biggest shows held by the club.

Major Bat Races Tighten

NEW YORK (AP)—Johnny Hopp of Boston has moved into a first place tie with Stan Musial of St. Louis for the National League batting, according to averages including Sunday's games, but Mickey Vernon of Washington still held a comfortable 10-point margin in the American.

Although Hopp appeared in only two games during the last week he collected two hits in five trips to advance into a tie at .365 with Musial whose hot batting pace slipped off four points. Dixie Walker of Brooklyn clung to third place at .359.

Vernon's .349 average gave him a 10-point spread over Ted Williams, who at .339 was getting a stiff battle from his Boston teammate, Johnny Pesky at .338.

Last Boxla League Game Set Tonight

Last box-lacrosse league game of the season will be played this evening at Stevenson Park starting at 6.30 with Foul Bay meeting Jokers in an attempt to tie for second place with Tillikums.

Jokers are in fourth place and cannot, even if they win, get out of the slot. But Foul Bay can tie with Tillikums if they put the laughing lads in their place.

Play-off arrangements will be made at a meeting following the game between league officials and a delegate from each club.

Twilight Foursomes At Uplands Links

A twilight two-ball foursome competition, in which 14 couples from the club will participate, will take place at Uplands Golf Club Thursday evening. The competition will consist of 12 holes medal play with half of the total combined handicaps being used. First couple will tee off at 6. A list of the draw is posted on the club notice board.

Missing Ration Books Nearly Cost Whittaker Boat Passage

VANCOUVER (CP)—Freddie Whittaker, famous soccer player from Vancouver, who is en route with his bride to Britain to join the Notts County's professional team, was sent to the sidelines at Halifax and nearly missed the boat.

Freddie was about to embark on the Aquitania at Halifax, Saturday, but dockside officials wouldn't let him sail until he produced a receipt for the missing documents from the ration administration here.

An excited wife was sent to Freddie's mother who turned the ration books in at ration headquarters and wired that they had been turned in. This didn't satisfy the immigration officials, they wanted a wire from the regional ration superintendent.

Father Whittaker went to the ration office. It was Saturday afternoon and the office was closed. He was put in touch with a local newspaperman who follows ration matters. The reporter referred Whittaker to press relations man for ration board who passed "Fitbah" to J. Bruce Sutherland, regional ration superintendent. But Sutherland had moved and he had to be tracked down.

Finally, Sutherland got the necessary wire off to Halifax, and Freddie got over the goal-line just at the final whistle.

Winnipeg Gridders Want Larger Share

WINNIPEG (CP)—The Winnipeg Free Press said in its columns today that the only blip on the Winnipeg football scene was "the threatened walkout of a dozen or more of the local (Blue Bomber) stars if their demands for a greater share of the gravy are not met."

The newspaper said the players "held a secret meeting after last night's workout and intend to renew their requests to Bomber officials. They claim they approached them before, but never got an answer. At any rate, all concerned want to get the matter straightened up shortly so there will be no disruption as they prepare for Montreal."

(The Bombers and Montreal Alouettes will play a two-game exhibition series here Aug. 31 and Sept. 2.)

Cricket Tomorrow

Colts will play Spencer's in another cricket match tomorrow at Windsor Park, Oak Bay. The game will start at 2.30.

Spencer's beat Colts in their last meeting.

Teams follow:

Colts: Bruce Scott (captain), Bob Colquhoun, Owen Morgan, Bill Robinson, Bob Sherratt, J. V. H. Godfrey, Jack Gibbs, F. C. Bett, Ron Sykes, Brian Crane, Richard Rowe, Jack Rowe, Dicky Hales, Michael Booth, Jack Blevins.

Spencer's: Jim Oakman (captain), Tom Harper, Percy Shrimpton, Ted Oakman, V. Pritchard, George Gardiner, Stan Jones, Bert Napper, G. Currie, Norm Tyrell, T. Lewis.

BOWLERS MEET

The annual meeting of Britannia Branch Carpet Bowling League will be held Friday, August 23, at 8 in the branch clubrooms. Election of officers and general business discussion will take place.

off at 6. A list of the draw is posted on the club notice board.

San Francisco In 3 To 0 Win Over League All-Stars

The best that a picked crew of Pacific League baseball players had to offer was not good enough and today San Francisco's first-place Seals were resting after defeating the star-studded team, 3 to 0.

The game took place in San Francisco last night. It was the first time a selected group of players had been matched with the league's leading club.

From the take at the gate, \$5,000 will go to the families who lost husbands, fathers, or sons in the bus accident which claimed the lives of nine Spokane baseball players. Other beneficiary of the contest will be the Professional Baseball Players' Association of America. Attendance topped 44,000.

Twilight Foursomes At Uplands Links

A twilight two-ball foursome competition, in which 14 couples from the club will participate, will take place at Uplands Golf Club Thursday evening. 4 Strikeouts Tonight Give Jensen New Mark

Within four strikeouts of an all-time league record, rugged Bob Jensen of the Victoria Athletics is certain to set up a new mark tonight when he takes the mound against the league-leading Wenatchee Chiefs at Athletic Park, starting at 8. It will mark the opening of a six-game series with single engagements through to Saturday when an afternoon and evening game will be run off.

Jensen will be shooting for the record of 248 strikeouts set up by Floyd Iskrite while with the Tacoma club in the season of 1938. It will mark the first starting assignment for the Swede since he was beaten here last Wednesday night by Bremerton. He turned in a couple of relief chores in Bremerton but they were just long enough to keep him in trim.

Winnipeg Gridders Want Larger Share

WINNIPEG (CP)—The Winnipeg Free Press said in its columns today that the only blip on the Winnipeg football scene was "the threatened walkout of a dozen or more of the local (Blue Bomber) stars if their demands for a greater share of the gravy are not met."

Freddie Whittaker, famous soccer player from Vancouver, who is en route with his bride to Britain to join the Notts County's professional team, was sent to the sidelines at Halifax and nearly missed the boat.

Freddie was about to embark on the Aquitania at Halifax, Saturday, but dockside officials wouldn't let him sail until he produced a receipt for the missing documents from the ration administration here.

An excited wife was sent to Freddie's mother who turned the ration books in at ration headquarters and wired that they had been turned in. This didn't satisfy the immigration officials, they wanted a wire from the regional ration superintendent.

Father Whittaker went to the ration office. It was Saturday afternoon and the office was closed. He was put in touch with a local newspaperman who follows ration matters. The reporter referred Whittaker to press relations man for ration board who passed "Fitbah" to J. Bruce Sutherland, regional ration superintendent. But Sutherland had moved and he had to be tracked down.

Finally, Sutherland got the necessary wire off to Halifax, and Freddie got over the goal-line just at the final whistle.

Russian Track Team Holds Much Interest At Oslo

LONDON (CP)—A 35-man Russian track team, cloaked in mystery and purported to have broken world records, makes its western debut this week in the European amateur championships at Oslo, Norway.

Not since 1923 have the Cosacks of the cinder lanes competed against the outside world. And they are expected to spring some surprises against the 20 other European countries entered in the biggest sports carnival since the last of the quadrennial meets in 1938.

The very presence of the Soviet team speaks for quality, since the Kremlin has a reputation for exporting only sure shots. The Soviet soccer football team overwhelmed British opposition last year and the Russian chess players have made several successful moves about Europe.

At the same time, the International Amateur Athletic Federation—including delegates from the United States—will be meeting in Oslo, and Russia has been invited to observe the sessions.

Professionalism is scheduled to be the hottest topic at the I.A.A.F. meeting, with sweeping decisions affecting the roll call at the next Olympics possible.

Cricket Tomorrow

Colts will play Spencer's in another cricket match tomorrow at Windsor Park, Oak Bay. The game will start at 2.30.

Spencer's beat Colts in their last meeting.

Teams follow:

Colts: Bruce Scott (captain), Bob Colquhoun, Owen Morgan, Bill Robinson, Bob Sherratt, J. V. H. Godfrey, Jack Gibbs, F. C. Bett, Ron Sykes, Brian Crane, Richard Rowe, Jack Rowe, Dicky Hales, Michael Booth, Jack Blevins.

Spencer's: Jim Oakman (captain), Tom Harper, Percy Shrimpton, Ted Oakman, V. Pritchard, George Gardiner, Stan Jones, Bert Napper, G. Currie, Norm Tyrell, T. Lewis.

Twilight Foursomes At Uplands Links

A twilight two-ball foursome competition, in which 14 couples from the club will participate, will take place at Uplands Golf Club Thursday evening. The competition will consist of 12 holes medal play with half of the total combined handicaps being used. First couple will tee off at 6. A list of the draw is posted on the club notice board.

Missing Ration Books Nearly Cost Whittaker Boat Passage

VANCOUVER (CP)—Freddie Whittaker, famous soccer player from Vancouver, who is en route with his bride to Britain to join the Notts County's professional team, was sent to the sidelines at Halifax and nearly missed the boat.

Freddie was about to embark on the Aquitania at Halifax, Saturday, but dockside officials wouldn't let him sail until he produced a receipt for the missing documents from the ration administration here.

An excited wife was sent to Freddie's mother who turned the ration books in at ration headquarters and wired that they had been turned in. This didn't satisfy the immigration officials, they wanted a wire from the regional ration superintendent.

Father Whittaker went to the ration office. It was Saturday afternoon and the office was closed. He was put in touch with a local newspaperman who follows ration matters. The reporter referred Whittaker to press relations man for ration board who passed "Fitbah" to J. Bruce Sutherland, regional ration superintendent. But Sutherland had moved and he had to be tracked down.

Finally, Sutherland got the necessary wire off to Halifax, and Freddie got over the goal-line just at the final whistle.

ARE YOU IN THE Sports Parade?

OR MERELY A BYSTANDER because of—

PSORIASIS

While others are enjoying the thrills of outdoor sports and pleasures, are you merely an unhappy onlooker because of ugly psoriasis lesions? If so—try **SIROIL**. It may alter the picture for you as it has for thousands of others. **SIROIL** tends to remove the crusts and scales of psoriasis which are external in character and located on the outer layer of the skin. If or when your psoriasis lesions recur, light applications of **SIROIL** will help keep them under control. Applied externally **SIROIL** does not stain clothing or bed linen, nor does it interfere in any way with your daily routine. Try it. Certainly it's worth a trial, particularly since it's offered to you on a two-weeks' satisfaction-or-money-refunded basis.

The DOCTOR Says:

By WILLIAM A. O'BRIEN, M.D.
NOTES ON FIRST AID

Every fracture of a major bone should be splinted before the patient is moved. Fractures of small bones may not require this special precaution, but if the spine or a bone in the leg or arm is injured, a splint should be applied. Skin wounds should be covered with a clean cloth or sterile dressing, but no skin antiseptic should be used because of the possibility of further damage to the tissues. Except for the control of hemorrhage, emergency treatment seldom requires haste.

Keep the victim covered and send for help. Injured patients should always be carried on a stretcher in an ambulance if possible; never should they be crowded into the back seat of an automobile. In lifting injured persons, avoid the common error of carrying them by holding on to their arms and legs, with the thighs flexed on the abdomen, as this may cause laceration of important blood vessels and nerves.

PAD SPLINTS

In suspected injury to the spine, extra care is necessary to avoid further damage to the spinal cord. A blanket should be slipped under the body if the patient is lying face down and each one of the four corners should be grasped by a strong adult so the patient can be lifted without bending the back. If a stretcher is used, a small roll of padding can be placed under the small of the back to avoid backward bowing of the spine.

Fractures of the forearm or wrist may be splinted by using towel-padded pieces of wood on each side. Or, a bunch of folded newspapers can be wrapped around the injured extremity before splinting. The splinted member should be held up by a sling tied around the neck.

In fractures of the arm, a pad may be placed between the arm and the body and the arm bandaged against the body. In injuries of the collarbone, a figure-eight bandage may be placed around the body and shoulders.

For fractures of the femur, a padded board can be placed

alongside the body extending from the arm pit to the foot. This can be held in place by strips of cloth which are tied around the chest, waist, thigh, knees and ankles. Or padded boards may be placed on both sides of the thigh and held together with ties. In the case of fracture of the ankle, a pillow can be folded around the injured extremity and tied with bandages.

First-aiders should not attempt to reduce fractures and all unnecessary manipulation should be avoided, as it may not only be painful, but it can cause damage. If it is a minor injury, it is safe for the first-aiders to move the victim without waiting for a physician to arrive. If the doctor is on the way, wait and keep the patient as comfortable as possible.

Three representatives of veterans' organizations and Col. F. T. Fairley, deputy minister of education, have been appointed by provincial order-in-council to the Commission for the Education of Soldiers' Dependent Children. Representing the veterans' organizations will be F. J. Townsend, Canadian Legion; Maj. T. R. Wheatons, Army and Navy Veterans, and A. Palmer, Amputations Association. Terms of offices will end next June 30.

They'll Do It Every Time

Uncle Ray

SAND CLOCKS AND FIRE CLOCKS WERE TESTED DURING MIDDLE AGES

Water clocks were adopted by the Romans, and the old Roman emperors used them to learn the time of day. They were the best clocks known in that period.

These clocks played a big part in time-telling during the Middle Ages. An old record states that a Persian king gave a beautiful gold and bronze water clock to Charlemagne, who ruled France, Germany and part of Italy.

The clock, we are told, had a dial with 12 small doors, and each door represented an hour. When the first hour passed, a door would open and a little ball would roll out and fall on a brass drum. At the end of the second hour, the second door would open, and two balls would fall on the drum. Three balls would fall at the end of the third hour, and so on until all 12 doors were open. When it was 12 o'clock, 12 horses would come out, and shut all the doors.

That clock was excellent in its way, but there were troubles with water clocks in general. The water in them might freeze during winter, or it might drip too fast or too slowly at any time of the year.

Here and there, men tried other forms of clock. The sand-glass is believed to date back about 1,200 years. It used much the same principle as the water clock, but sand dripped instead of water. The flow of sand was likely to be more regular than that of water.

Sand-glasses were made in different sizes and some of them were large enough to hold sand which fell in the course of an hour. The latter were given the special name of "hour glasses."

Three centuries ago, some ministers of the gospel used hour glasses to time their sermons, and to limit the length.

Another early form of clock was made with a candle. A long, thick candle was marked so the burning wick would show the passing of time. This kind of clock gave light at the same time it showed the hour of night.

A similar kind of "fire clock" was an oil lamp. The oil was under glass, and the glass had hour marks on the outside.

Saanich Ward 6 Endorses Statement

Special directors' meeting of Ward 6 Ratepayers' Association was held at Saanichton Sunday night to consider developments in the move to split Saanich municipality into two separate municipalities and its effect on the succession petition of Ward 6 presented to the provincial government.

The directors unanimously endorsed a statement presented by Sydney Pickles, president of the association.

"Rural Ward 6 comprises . . . nearly one-third of the total acreage of the present Saanich municipality," said the statement. "Ward 6 is known to have great value as collateral security for the raising of municipal local improvement loans to develop suburban real estate subdivisions."

"Therefore what could be better than to use every possible means to see that Ward 6 does not achieve its freedom from bondage to the Saanich municipality for which it has been struggling for the past 36 years."

"The reasoning is that once Wards 1, 2 and 7 are conveniently detached from the Saanich municipality then the government through its department of municipal affairs is expected to be persuaded to refuse the secession petition of rural Ward 6, under the Relief of Saanich Act, now before the provincial government."

To Meet In Victoria

A National Film Board conference will be held at the Empress Hotel the first week in September, Charles W. Marshall, Vancouver Island representative, said today.

Among those attending the conference will be J. Ralph, co-ordinator of Canadian distribution, and J. Beveridge, in charge of production. The majority of discussions will be held with provincial officials at the Parliament Buildings.

The purpose of the conference is to co-ordinate the activities of the film board with those of provincial government departments, Mr. Marshall said.

Up At 2, Tourists Still Manage Smile At Ferry-Queue Jockeying

Maybe Victoria can give itself a pat on the back for being so friendly to visitors from the United States that they are willing to overlook an inconvenience. Or maybe the visitors deserve the pat on the back for being good sports.

But almost without exception, drivers of American cars, who got up as early as 2.30 this morning to place their automobiles in favorable positions to catch the morning ferry back to the United States, were willing to consider their nocturnal jockeying for a good space on the wharf as part of a game, and slightly amusing. S. S. Gilpin of Los Angeles climbed out of bed at 2 to drive his car to Belleville Street. The cars are not allowed on the wharf until 5. His car was 10th in the line-up of more than 35 cars on the wharf (a slack morning, a wharf employee said) but he was able to grin about it.

"Your accommodation in Canada is passe and your roads are poor," Mr. Gilpin said. "But I love it up here, I'm coming again next year. This is a beautiful city."

"The people here are more friendly than they are elsewhere, and the accommodation, for which we had reservations, was very good," Mr. and Mrs. G. H. Garner of Stockton, Calif., said.

Mr. Garner laughed as he told of getting up at 3.30 to get into 12th position on the wharf. "We certainly like it in Victoria, and want to come back next year," Mrs. Garner said.

Although the large tuna schools sighted off the Oregon coast are not feeding and catches remain poor, fishermen here are still hoping to make two or three good trips to make up for losses suffered so far. Elgin Neish, president of the Victoria-local of the United Fishermen's and Allied Workers' Union, said today.

Usually the tuna school up in the fall and work their way north. Mr. Neish said, and he hoped there might be two or three good trips yet. However, he pointed out, the tuna are still a long way down... some as far down as the Oregon-California border.

Nearly every tuna boat operating out of this harbor is "in the hole," he said. Most of the salmon fishing vessels which made a try at tuna fishing this year have gone back to salmon, and Mr. Neish estimated there were not more than half a dozen of them still putting out from Victoria after tuna.

One of the largest U.S. tuna fleets in history is at present operating off the coast. Mr. Neish continued, but the U.S. fishermen are also having poor luck. He estimated as many as 500 tuna vessels, ranging from one-man boats to large tuna clippers, were operating out of U.S. ports.

Pilchard fishermen, too, are having bad luck, and, on the whole are pessimistic about their opportunities this year; although there is still hope a flurry in pilchard may be expected towards October. One report has been received of a "lost" run of the fish located off the Washington coast.

Coho salmon fishing has been very spotty and sockeye salmon

BLACKHEADS
Blackheads simply dissolve and disappear by this one simple, safe and sure method. Get two ounces of peroxide powder from any drug store, sprinkle on a hot, wet cloth, and apply gently every blackhead will be gone.

Skin Irritations?
Eczema Itching—Rashes—Pimples

"The only fault we have to find is the lack of road signs. We traveled many extra miles because there wasn't enough road signs. But people were friendly about giving directions."

FEEL AT HOME
"We have felt more at home here than we did in parts of the United States," Mrs. H. D. Steward of Pasadena, Calif., said. "I suppose it's because in the United States we were just part of the crowd, but here we have been visitors. I certainly hope we are as friendly to visitors from Canada. Are we?"

"We'll put ourselves out to entertain any Canadians we meet in California, you can be sure of that."

Mr. Steward was another driver who could smile after getting up at 4.15. His car was 23rd in line.

Mr. and Mrs. Steward said they were coming again. They had stayed three days this time. Next time they were going to stay for a month.

WOULDN'T HAVE COME
But there was one driver who was an exception to the rule of cheerfulness.

"This is charming, charming," he said without smiling. "I wouldn't have come if I had known about this waiting."

Then he did smile. "I'll come back very gladly when this business is straightened out," he said.

"There are very few unhappy ones among the tourists," a wharf policeman said, surveying the mass of cars on the dock.

"There may be one or two in the whole line-up who feel a bit grouchy, but most of them take it in good humor."

In this area have been running right through, leading fishermen here to anticipate good fishing in the Fraser River at least. Many pilchard fishermen have been in the hunt for sockeye.

Scores Traffic Regulations

Traffic regulations in Victoria are "mixed up so badly, it is almost impossible for our Chief of Police to instruct his men properly," James A. Griffith of Victoria stated in a letter to Mayor Percy E. George and the city council today.

"I have been driving a car in Victoria since 1909 and I think the parking of cars regulations are the worst yet," he wrote.

"It is most likely the buses on the streets are causing most of the troubles; they stop anywhere anytime," he continued. "Today I saw three buses parked near the middle of Yates Street at one time, and every car had to cross on the other side of the street to get past."

Mr. Griffith, in a round-up of traffic problems he had seen on the Pacific coast, advocated the laying out of loading zones for buses all over the city, at least one block apart in the business section.

John Bond Passes

John W. Bond, 522 Rupert Street, a resident of Victoria since 1914, died this morning at Royal Jubilee Hospital after a brief illness. He was 80.

Born in England, Mr. Bond spent his youth in Australia, and resided in Edmonton before coming to Victoria. Retired for many years, he took a keen interest in Saanich Arm angling.

Trade Expert Here Before Going To Greece

T. J. Monty, Canadian government trade commissioner to Athens, Greece, will visit in Victoria on Thursday to meet Vancouver Island manufacturers and exporters interested in markets in that Mediterranean area.

Appointments to meet Mr. Monty may be made through the trade commissioner's office of the provincial Department of Trade and Industry where Mr. Monty will make his headquarters during his stay in Victoria.

A formerly acting trade commissioner in Los Angeles for the Canadian Government, Mr. Monty, a graduate from the University of Montreal joined the Dominion Department of Trade and Commerce in 1930 and went to Athens as assistant trade commissioner in May, 1931. In 1934 he was transferred to Tokyo.

Sent to Oslo, Norway, in 1938, Mr. Monty and his family fled from the city during the 1940 invasion by the Germans but subsequently was captured and interned. He was released from internment in Germany in 1942 and returned to Canada.

"A very discouraging thing to do," said Magistrate H. C. Hall in city police court today to Robert Betts, Happy Valley Road, charged with impeding the progress of a funeral at Yates and Quadra Streets by cutting into the procession. Betts pleaded guilty to the charge and was fined \$5.

Overnight Entries For Hastings Park

VANCOUVER (CP)—Hastings Park entries for Wednesday, Aug. 21:

U.S. Railroad Head Arrives Wednesday

Martin W. Clement, president of one of the U.S.A.'s biggest railroads, the Pennsylvania, is expected to arrive in Victoria with his wife and daughter, Wednesday.

Mr. Martin and his family arrived in Vancouver today from Jasper National Park, where they have been vacationing. They were met in the mainland city by W. T. Moodie, general superintendent, B.C. district, C.N.R., and Bernard Allen, assistant general manager.

Mines Report To Go To Cabinet Shortly

The Provincial Cabinet is expected to act shortly on the report of Dr. J. Walker, deputy minister of mines, who acted last month as chairman of the mines department committee studying the feasibility of a 44-hour work week for metal mines of the province.

The report of the three-man committee was turned in to Mines Minister MacDonald some weeks ago following public hearings held in Victoria. It is possible the report may go before the cabinet next Friday.

Meanwhile in Vancouver, Harvey Murphy, regional director of the International Union of Mine, Mill and Smelter Workers (I.M.S.W.), has charged the provincial mines department with obstructing the application by the union for a 44-hour week.

"The mines department," said

Cowichan Bay Prepares For Busy Fishing Season; Springs Are Late

COWICHAN BAY (Special)—Sport fishing was fair last week. The spring salmon are a little late this year but are starting to come in the bay and enter the Cowichan River. Some fish over 30 pounds were landed, the Lucky Louie plug, and the 50-50 No. 6 spoon were about even favorites in the catch.

A. D. Ordano has just completed his new boat-floathouse which is capable of holding 25 boats. Mr. Ordano has added five motor boats to his already large fleet of sports fishing boats which are in great demand this season, patrons being well-known sportsmen from all over the States and Canada. "Ordanos" are the pioneer family of Cowichan Bay.

Stewart's Marine Ways, which service visiting yachtsmen and fishermen, are expecting a very heavy booking for the coho fishing season. The ship repair works have been kept busy getting the private owned boats in shape.

Where a pile of ashes lay a month ago after the fire which completely destroyed Peck's fine building and boat ways, and the

adjoining famous fisherman's resort the Maxwell House, which had just been completely renovated, the pioneer spirit is showing itself. Capt. Don Peck expects to move into his new building this week and Mr. and Mrs. Bob Andrews are working night and day to try and get a few rooms completed in their new building, to take care of coho fishing guests.

SHIPS TAKE LUMBER

Two deep water ships were handled by the Canadian National Dock at Cowichan Bay last week. Ss. Santyne loaded 806,000 feet of lumber for the United Kingdom. The crew is looking forward to getting "home," having been on the present voyage seven months.

Ss. K. I. Luckenbach loaded 450,000 feet of lumber and sailed for Holland.

Ss. Joseph A. Chevalier is expected in to load lumber for the United Kingdom.

The tugboats were busy last week towing booms of logs for Kapoor Sawmills at Port Moody and Fraser River mills.

Vanderbilt Afraid City Spoiling Charm By Commercializing

Cornelius Vanderbilt, 46, so-called author, newspaperman and veteran of two world wars, visiting Victoria for the first time in a decade, is disappointed with what he finds. "In trying to become commercial, Victoria is losing some of its picturesque charm," he said today.

Speaking in a soft, hurried voice, Mr. Vanderbilt, who has had his face rebuilt twice owing to injuries sustained on war service, and is not sure how many millions of dollars he has, said he had made a short tour of Victoria last night and had found Victoria had grown considerably since he was last here and that some of its main attractions had grown a little.

Butcher Gardens and the Marine Drive, both of which he saw again last night, had grown a little shabby, he said, although he was inclined to believe the war-and-consequent labor shortages were responsible.

His travels as a columnist for the New York Post have taken him to many places in the North American continent, and he has found the tendency to commercialize in a number of erstwhile charming towns, but he was most concerned over Victoria, which he believes is one of the rarest cities in North America for its charm and quaintness.

Mr. Vanderbilt has been writing since 1920, mainly because he was in love with his work. However, he admitted, he was also doing it partly to prove to himself he could earn an honest dollar.

Mr. Vanderbilt first went to the Great War with the French Foreign Legion at the age of 16, and later joined the U.S. Army. He saw three years in the trenches during World War I as an enlisted man. He came out as a sergeant dispatch rider.

In the last war he served the large portion of his time with intelligence as a major, but came out as a colonel. He was appointed inspector general of troop transports on the Atlantic and made 66 crossings on troop ships.

He retired from the army in 1944 and went to work for the New York Post. A year ago, he was sent on a tour of North America to write his column "Vagabonding With Vanderbilt."

He is at present accompanied by Paul Tierney, managing editor of the Post, Mrs. Tierney and Paul Tierney Jr., who are spending a holiday traveling with him.

Mr. Vanderbilt leaves Victoria today to rejoin his assistants in Anacortes, Wash.

Persons Missing

City police were searching today for 80-year-old Peter Thompson, 531 Rupert Street, whose wife reported him missing since 10 a.m. Monday.

He is described as 5 feet 8 inches, heavy-set with an artificial leg and wearing dark tweed pants, dark sweater and grey felt hat.

Also reported missing is Doeren Culbertson, age 16, who left her home in Vancouver last Wednesday. She is 5 feet 5 inches, weight, 128 pounds, and has dark hair, blue eyes and medium complexion. She was last seen wearing a grey suit with white topcoat.

Mr. Murphy, "is acting solely in the interests of the mine operators on this question. The 44-hour week should have been in effect July 1 with all other industries and the fact that it is not is due to stalling."

Fall Downstairs Ends Life Of War Veteran

Dr. E. C. Hart, coroner, today ordered an inquest into the death of Thomas White, 51, veteran of the First World War who fell downstairs to his death in a downtown hotel, Monday evening. Date of the inquest will be announced later. City police reported White was found by occupants of the second floor. He was last known to be on the seventh floor and is believed to have fallen between the inside stairs.

Fire Destroys 500,000 Ft. Of Logs

Five hundred thousand feet of felled and bucked timber on the Silver-Skagit Logging operation east of Hope were burned by fire which broke out at 2.30 Monday afternoon on the company's operations.

B.C. Forest Service headquarters here reported the blaze Monday night had covered an area two miles long by half a mile wide. The fire was blamed on friction from a tractor operation. No machinery had been lost, according to latest reports to the B.C. Forest Service headquarters.

In Nelson forest district 19 fires are burning and 148 men are fighting them. The fire hazard was reported increasing.

Forty-eight forest fires were reported burning in the Kamloops forest district Monday night, while in the Fort George forest district five fires were burning.

The forest fire hazard in the Prince Rupert forest district was reported low to moderate.

Surprised At City Not Wanting Huts

Citizens' Rehabilitation Council officials expressed surprise today at the announcement that the City Council had advised J. A. Walker, Emergency Shelter Administrator, that it is not interested in leasing army huts at Clover Point for emergency housing.

"The Rehabilitation Council feels that the public should know that the Emergency Shelter Administrator may lease such huts for housing," A. Palmer, executive secretary said, "but that it must be done through the municipalities, which have the power to sub-let the huts to any responsible citizens."

"The only way of obtaining the huts for emergency housing is through the co-operation of the municipalities."

MacQueen Will Leave B.C. Forest Service

Ian C. MacQueen, chief of the British Columbia Forest Service's fire control organization, will resign Sept. 30 to join the Vancouver firm of consulting foresters, Charles D. Schultz and Co.

A graduate in forestry from the University of B.C., who did post-graduate study at the University of California, Mr. MacQueen joined the provincial department in 1926. He returned after four years' R.C.A.F. service in 1945 to take charge of the service's fire control organization.

This year he attended tests of helicopters in the U.S. conducted jointly by the U.S. Army Air Corps and the forest service during which the role of that aircraft in forest protection work was evaluated.

Vanguard Of Prairie Harvesters Arrives

WINNIPEG (CP)—Vanguard of possibly as many as 4,500 workers, between 500 and 600 men most of whom were bound for Saskatchewan points, arrived in Winnipeg Sunday to help harvest the prairie's grain crop.

for general placement for the prairie region, National Employment Service, said the men would be sent out to individual jobs through co-operation of the provincial farm help services, the Federal Labor Department and the National Employment Service.

Tree Tops May Be Made Into Paper

OTTAWA (CP)—It has been reported that the Resources Department may take steps soon to encourage B.C. coast lumber operators to tighten their forest conservation and reforestation program by introducing more stringent anti-waste methods.

One important phase of this program could be the establishment of small pulp units in the vicinity of timber operations. These plants would have the job of salvaging the timber tops and processing them into pulp. Very little of this work now is being done and the big tops are declared wastage and destroyed.

The fact that this portion of the standing timber is knotty, has been taken into account and new processes are being studied through which difficulty can be overcome.

ASTOR — Paulette Goddard in "Kitty."

ATLAS — "The Garden of Allah," starring Marlene Dietrich.

CAPITOL — Gene Tierney in "Dragonwyck."

DOMINION — "It Shouldn't Happen to a Dog," starring Carole Landis and Allyn Joslyn.

OAK BAY — "Our Hearts Young and Gay," starring Gail Patrick.

PLAZA — "Terror By Night," starring Basil Rathbone and Nigel Bruce.

RIO — "Bedside Manner," starring Ruth Hussey.

ROYAL — Clark Gable and Greer Garson in "Adventure."

YORK — James Mason and Pamela Killino in "I Met a Murderer."

Doberman Pinscher Has Movie Role

A Doberman Pinscher named Rodney, appears with Allyn Joslyn and Carole Landis in 20th Century-Fox's new hit comedy, "It Shouldn't Happen to a Dog," now at the Dominion Theatre.

Rodney is the first Doberman Pinscher to be used in films.

YORK THEATRE

Taking a leaf out of the Alfred Hitchcock primer of movie direction, a co-operative British company has made a powerful psychological melodrama called "I Met a Murderer," now at the York Theatre.

RIO THEATRE

Charlie Ruggles portrays a small town doctor in Andrew Stone's "Bedside Manner," now showing at the Rio Theatre.

PLAZA THEATRE

Detective story addicts and thrill-seekers are being lavishly entertained at the Plaza Theatre where Universal's "Terror, By Night" is the current attraction.

CAPITOL THEATRE

Gene Tierney has come through with what preview critics consider her greatest dramatic triumph in "Dragonwyck," presented currently at the Capitol Theatre.

ROYAL THEATRE

Following her co-starring role with Clark Gable in "Adventure," showing at the Royal Theatre, the National Flower Association of America has titled its newest strain of peony the "Greer Garson."

Hollywood Column

By BOB THOMAS

HOLLYWOOD (CP)—Girls, if you think you could fit into the "molded sex" of Barbara Stanwyck's garments, there may be a chance for you in pictures.

When comes this "molded sex"? Let Edith Head, the fashion designer, explain it: "Molded sex is what I call the postwar clothes I designed for Barbara's next picture, 'The Other Love.' We have been going through a strange period of undressing our women, cutting away on materials. It's time we realized the value of subtlety in dressing."

"For molded sex we follow the Greek method of fitting clothes to the body beautiful. There's a great deal more charm and sex in what you can't see than in what you are forced to see."

But the problem is that Barbara would have to model 39 gowns. She wants a vacation, so Enterprise Production is seeking an exact double, who also will get a part in the picture.

Cecil B. de Mille gets back in a biblical vein with "Samson and Delilah," his next. Bing Crosby was buying drinks for his hole-in-one at Bel-Air. It pays to have children depts.: Vancouver's Yvonne de Carlo signed her house over to her mother. Vic Mature hired a sailboat and is hitting the high seas (to Catalina).

Miss Chapman said the government had had weeks to consider the final report of the commission. Her letter to Mr. St. Laurent said that "following publication of the report, my employers have put me on leave pending clarification of the imputations made against me."

Bank Of Toronto Will Construct New Building At Yates And Broad

The Bank of Toronto building at Yates and Broad Streets will be torn down and replaced by a modern bank building as soon as supplies and materials are available, Charles W. Pangman, retiring manager of the bank here, announced today.

No date has been set for the construction of the new building nor has the size and design been decided on, but the new building will be larger than the present structure and of either one or two stories, he said.

The Bank of Toronto owns the corner lot which has a 50-foot frontage on Yates Street and 100-foot frontage on Broad Street. Mr. Pangman did not believe the new building would cover the entire lot.

Because of the pressing need for larger accommodation the construction work would be undertaken as soon as possible, he said.

Recall History Of Island Building

DUNCAN—With the Vancouver Island Coach Lines settling down in new quarters, many long-time residents are recalling the history surrounding the company's former headquarters now being demolished, with the lumber going to build a Lutheran Church.

Built in 1887 by the late W. P. Jaynes, the old building was a Duncan landmark. It was used by Mr. Jaynes as a general store where he traded with whites and Indians.

Mr. Jaynes is recalled as the pioneer who was instrumental in getting the railway to come through Duncan. He was appointed temporary station agent by Robert Dunsmyth and built a warehouse on the present site of the Coach Lines Building.

Years later Mr. Jaynes rented the store to Messrs. Legther & Bevan, who opened a real estate and insurance office. In 1911 the partnership leased the back part of the store to E. W. Carr Hilton, who opened a branch of the Bank of Commerce with himself as manager and W. A. McAdam, now B.C. Agent-General in London, as accountant.

The late W. H. Hayward, M.L.A., was present at the bank opening and the first meeting of the Cowichan Cricket Club was held on the premises.

Spy Suspect Asks Charge Cleared Up

OTTAWA (CP)—Miss Agatha Chapman of Ottawa, renewed in a prepared statement Monday a request that the government exonerate her or direct prosecution against her on the basis of the Royal Commission espionage report which "alleged" she had participated in espionage.

She attached to the statement a letter addressed to Justice Minister St. Laurent in which she asked that she be exonerated or be given a chance to clear her name before the courts.

Miss Chapman said the government had had weeks to consider the final report of the commission. Her letter to Mr. St. Laurent said that "following publication of the report, my employers have put me on leave pending clarification of the imputations made against me."

Find Stolen Safe

WEST VANCOUVER (CP)—The 200-pound safe stolen from the West Vancouver telephone office nearly a week ago has been found hidden in brush, back of a disused army hut. The \$1,000 reported to have been in it at the time it disappeared, was missing.

Officials Favor Course In Driving At High Schools

A course in automobile driving instruction, both practical and theoretical, to be introduced into the present high school curriculum, is being considered by police and school officials.

Advanced in an effort to cut down the steadily-rising death and injury toll from accidents on British Columbia highways, the possibility of a course has been looked upon with favor by Mayor Percy E. George, Chief of Police J. A. McLellan and J. F. K. English, municipal inspector of schools.

Chief McLellan stated that one of the major causes of traffic accidents today, both on city streets and country highways, was lack of courtesy on the part of automobile drivers.

"I believe this is one thing that can be taught to advantage in our high schools, and I am willing to detail one of my men to co-operate in any way with the school authorities in putting this course into practice," he said.

Belief that a course in driving has a definite place in the school curriculum was expressed by Insp. English. He said, however, that organizational problems caused by the recent change in the B.C. educational system, made immediate consideration of its adoption doubtful.

At least three-quarters of all accidents reported today would be prevented through a little courtesy on the part of the drivers, in the opinion of Insp. Harry Mercer.

"Most young people are quite capable of operating a motor vehicle, but few realize the distance required to stop a speeding automobile or the ease with which a driver can lose control if a quick turn is necessary," he said.

Drivers between the ages of 16 and 20 years are involved in more accidents than those in any other age group according to statistics.

Dominion Almost Doubles Prewar Food Production

GENEVA PARK, Lake Couchiching, Ont. (CP)—Despite a draining off of 20 to 25 per cent of Canada's farm labor force during the war years, the Dominion has delivered 140 per cent of her prewar food production—not far short of doubling the per capita output of her farmers, K. W. Taylor, deputy chairman and food co-ordinator of the Prices Board, said today.

At the annual conference of the Canadian Institute of Public Affairs, Mr. Taylor said "Canada probably came as close as any country, and closer than most, to achieving a total war effort."

"Once total economic mobilization had been reached, it is substantially true to say that a further significant increase in any one aspect of the war effort could have been achieved only by a corresponding curtailment of effort elsewhere."

Reviewing Canada's food program and policy, he termed "a remarkable Canadian achievement" the increase over prewar production averages of wheat by 35 per cent, meats and eggs 60 per cent, cheese 40 per cent, concentrated milk products 120 per cent and sugar 25 per cent.

"A similar story can be told of our other great food producing industry, the fisheries," he added.

Above all the measure of success Canada had achieved "has been the result of plain hard work, long hours—winter and summer, hours of extra chores in the early dawn and in the evening—by 1,000,000 farmers and their wives from coast to coast."

School Opening Delayed By Polio In Denver

DENVER (AP)—The Denver school board voted unanimously Monday to postpone the opening of the city's public schools from Sept. 3 to Sept. 16 as Colorado's total of infantile paralysis cases rose to 406, of which 150 have been in Denver.

Six deaths from polio over the last week-end, including that of a 67-year-old woman, brought total fatalities to 30.

Nanaimo Man Heads School Association

EDMONTON (CP)—J. Barsby of Nanaimo, B.C., was named president of the Canadian School Trustees' Association at concluding session of the two-day convention here Monday. The office had been vacant since the death July 31 of A. E. Ottewill of Edmonton.

M. A. Campbell, Toronto, was named honorary president. Other officers elected were D. H. Montgomery, Halifax; George Webster, Toronto; George A. Sliton, Brandon, Man.; and H. E. Spencer, Edmonton, Alta. C. W. McCool, Saskatoon, was named secretary-treasurer.

Foresees Shortage Of 8,000,000 Tons Of Bread Cereals

GENEVA PARK, Lake Couchiching, Ont. (AP)—A possible world shortage of 8,000,000 metric tons of bread cereals for the winter of 1946-47 was foreseen in an address today by George R. Paterson, Canadian member on the International Emergency Food Council's central committee.

Mr. Paterson, counsellor on agricultural affairs to the Canadian Embassy in Washington, D.C., told the Canadian Institute of Public Affairs to bring many people to prewar dietary levels will not be fulfilled.

Drawing from his long experience with the Combined Food Board and similar agencies which directed food production and distribution in the past four years, Mr. Paterson discussed the complex problem still facing the United Nations in the effort to meet the world's minimum requirements of foodstuffs.

Solution of the problem was not only to provide enough food to meet the shortages but to cope with the factors which bring great shortages in many heavily populated areas and to make it possible for people in starvation areas to buy from the world's available supplies.

Mr. Paterson estimated the deficit areas would require, in the 1946-47 season, 30,000,000 metric tons of bread grains.

Visit Observatory

Another visit to the Dominion Astrophysical Observatory at Little Saanich Mountain by 80 members of the Victoria Astronomical Society was made Monday night for instructional lectures in the series of "Summer Evenings With the Stars."

Dr. A. J. Pierce, director of the observatory and other astronomers on his staff, instructed the large group. A description of the big telescope at the observatory, the fourth largest in the world, was given. The visitors then viewed the Great Cluster in Hercules and were given an historical survey of the stars.

Other clusters and nebulae were viewed through a smaller telescope, and the various constellations of the heavens were pointed out.

In addition to Dr. Pierce, instructors included Dr. C. S. Beales, Dr. K. O. Wright, Dr. A. McKellar and Miss J. McDonald.

Trends Stiffen As Market Closes

NEW YORK (AP)—Timid buying selectivity persisted today although scant attention was paid many leaders.

Dealings, fairly active at intervals, frequently slowed. The pace quickened a bit in the final hour as trends stiffened here and there. While losers were plentiful and numerous pivots on unchanged advances of fractions to a point or so held the majority near the close.

In the Canadian group, McIntyre was up 1/2. Distillers Seagrams eased 1/2 with other issues holding unchanged.

Dow Jones averages closed today as follows:

30 Industrials	201.27, up 1.08
20 Rails	62.39, up 0.43
15 Utilities	41.45, up 0.10
65 Stocks	74.64, up 0.30

Selected Papers

Show Improvement

MONTREAL (CP)—Price adjustments were generally lower in dull trading up to the last hour today.

Selected papers were improved with International, Albitibi common, Albitibi preferred, St. Lawrence Paper preferred and Dryden higher.

The utilities were quiet with Montreal Power and Winnipeg Electric steady.

Fractional losses were in a majority in the industrials. Cement and Acadia A were better.

Imperial Oil and Petroleum were ahead and B.A. Oil behind in refineries.

Turnover was light in junior mines and prices slightly easier.

Closing Montreal averages:

20 Industrials	139.9, unchanged
10 Utilities	76.9, off 1.00
30 Combined	118.9, off 0.30
10 Pulp, Paper	368.98, up 1.33
15 Golds	78.43, off 0.31
Total sales	172,900
